UCL Developmental Risk and Resilience Unit
Project Worker – As and When Contract

The Division of Psychology and Language Sciences Developmental Risk and Resilience Unit will be leading a new project looking into motivation and prosocial behaviour in adolescents with challenging behaviour.

We are looking for an individual with strong interpersonal skills and experience of working in a research environment, as well as in patient or customer-facing roles. An ideal candidate would have experience in data management and programming (including Excel, MATLAB, & R). The role involves liaising with schools, parents and students, working with students in a school or home-based setting, data entry and data processing. We are looking for an individual who can work as and when the need arises.

Payments will be at an hourly rate of £12.88 per hour.

Further information including a job description and person specification can be seen below.

To apply for these vacancies, all applicants must send their CV to Professor Essi Viding (e.viding@ucl.ac.uk) no later than 5pm on Friday the 3rd of May.

Shortlisted candidates will be contacted for interview. Interviews will be held week commencing May 5th 2018.
Job Description

Main duties and responsibilities include:

- Communication about the project with pupils, schools and parents
- School or home-based testing
- Data entry
- Data processing

Person Specification

The ideal candidate will have the following skills and attributes:

Essential

- An ability to communicate sensitively and effectively with a diverse set of people from different backgrounds
- An ability to work independently, as well as collaboratively as part of a team
- Excellent organisational skills, an ability to meet deadlines, manage concurrent tasks and prioritise
- A high standard of oral and written English
- A commitment to your own continuing professional development
- A commitment to UCL's policy of equal opportunity and the ability to work harmoniously with colleagues and students of all cultures and backgrounds.

Desirable

- Some experience of working with children
- Programming experience in Excel, MATLAB, and R
