UCL EPSRC Research Assistant – As and When Contract

Principal Investigator Dr Jeremy I Skipper is leading an EPSRC funded award (EP/M026965/1) to develop new mechanisms for supporting hearing: ‘New pathways to hearing: A multisensory noise reducing and palate based sensory substitution device for speech perception’ (see: http://gow.epsrc.ac.uk/NGBOViewGrant.aspx?GrantRef=EP/M026965/1).

We are looking for a graduate level research assistant with excellent organisational and people skills who has run experiments associated with speech perception and language comprehension, preferably with experience using sensory substitution devices. The role involves, recruiting participants, designing and running psychophysics experiments using several electrode arrays and writing reports on results.

Salary will be Grade 6, inclusive of London Allowance.

To apply for this vacancy, all applicants should send their CV to Jeremy I Skipper (jeremy.skipper@ucl.ac.uk), no later than 5pm on Friday 26th October 2018.
