This guide is available online and to download at: [www.ucl.ac.uk/agile-working](http://www.ucl.ac.uk/agile-working)
Agile Working helps us to work towards becoming ‘One PS’.

Two key aims of the unified Professional Services vision are that we become one community, and recognise a shared identity.

For those of us working in agile areas these protocols will:

- Enable collaboration between teams, by having the ability to easily move around the agile space and feel like one community.
- Promote great behaviours and standards, which will contribute towards building a shared identity.
- Guide us to work towards a common vision of how we want to operate, so that we can work on the big challenges and opportunities together.

Fiona Ryland, Chief Operating Officer - UCL
PART A: STANDARD PROTOCOLS FOR ALL AGILE AREAS
The principles of Agile Working are for staff working across different divisions interacting within a shared space, in a designated agile building.

• Due to the nature of the range of roles within teams, the agile environment caters for different ways of working. Some staff will be more agile than others and, as such, individual workstations are unallocated (unless there is a specific need).
• However, divisions have been allocated designated zones and staff should work within these wherever possible. If divisional space is unavailable, staff may use touchdown or vacant agile desks within the building.

• If you are going to be absent for two hours or more the desk should be completely cleared and left available for other staff members to use. If you are using the desk all day, it must also be cleared when you leave.

• Various touchdown areas, with power, are provided for people who need space for a short period of time. They do not have monitors and are not for prolonged use.
THE PRACTICALITIES

Name tags
• Name tags are provided for all staff members which should be placed in the plastic holders on the monitors. Place your name tag in the holder provided on top of the monitor when you sit at a desk and remove it when you leave for the day. This helps people to locate you in the office.

Phone
• Log in and out of your phone each day — see page 9.

Storage
• Working papers and files should be placed in cabinets allocated to your team when you leave the office. Personal items, including laptops and locker boxes, should be placed in your personal storage locker (laptops can be taken home if needed).

Confidential Waste
• Any paperwork that is of a sensitive nature should be disposed of confidentially via the confidential waste consoles on each floor, which are emptied monthly. If you wish to schedule an additional collection raise a Service Request via the Estates website.
MINDFULNESS

Noise
- Be respectful of other users, do not use booths/desks for participating in conference calls.
- Be sensitive to people working at desks when waiting to access meeting rooms.
- Refrain from having long conversations at desks/touchdowns, and if your conversation is of a personal nature please move to the kitchen or communal area.
- When working at a desk, touchdown, or booth your mobile phone should always be set to vibrate or silent, and your laptop muted.

Using booths for meetings
- Booths should be used for fairly short (one hour max), non-confidential informal meetings for up to four persons. For this reason, don’t use booths to eat your lunch or use as a desk. See page 16 for information about meeting rooms and etiquette.

Food
- Hot food should be prepared and eaten in a kitchen, refrain from eating strong-smelling food at desks. See page 22 for information about the kitchen.
Outlook Calendar
• Ensure your calendar is up to date at all times, including when you are offsite.
• Calendars should be open so that others can view, this also helps us meet our duties to ensure your safety. The ‘Private’ facility can be used for confidential, sensitive or personal appointments.

Microsoft Teams
• Microsoft Teams is available to all staff members and provides enhanced tools for remote communication and collaborative working.
• You can use Microsoft Teams as an instant message tool or post a question on a team site for others to respond to.
• You can book or join a Microsoft Teams meeting from anywhere with Wi-Fi using your laptop and standard headphones.

Training
• You can find online reference guides and training on the ISD website.
THE AGILE WORKSTATION

The number of desks per floor is determined by the fire safety capacity of each building and comprise of standard, height adjustable and touchdown desks/benches.

Non-standard desks
• The height adjustable desks (found on every floor of the building) can be moved up or down using electronic controls. Feel free to use these if you would like the opportunity to vary between sitting or standing throughout the day, or if you have a specific DSE requirement.
• The touchdown desks/benches are non-adjustable, and are provided with power only; these desks are generally for short-term use only.

Chairs
In the Agile environment there are a number of ergonomic chairs which have been obtained for individuals with specific DSE requirements.
• Please do not use chairs that have name tags, unless no other chairs are available.
• Do not adjust chairs with name tags on as they may be set specially for the individual.
• It’s fine to swap for a general use chair from another desk if you need to make adjustments.
• If you experience any DSE-related issues, complete a DSE Assessment in the first instance.
Monitors
- The standard agile set-up provides dual monitors, these are connected into the port replicator (also known as the docking station).

Port replicators
- Connected to the port replicators are the monitors, keyboard, mouse, USB cable, power and ethernet cable.
- Please do not unplug any cables from the docking station or alter it in any way.

Power sockets
- Sockets are available on the desk should you need to plug in chargers etc.

Hygiene and cleanliness
- Clean desks and phone handsets before/after use, using antibacterial wipes provided.

If you have an issue with any IT equipment or something is broken please see your local IT representative or contact the ISD Service Desk.
print@UCL

• Printing is via print@UCL, and printers are located at several points on each floor.
• Some departments may have specialist printing requirements and have designated machines on their floor e.g. a plotter printer.
• Toners and consumables are automatically ordered by print@ucl printers when required, these are delivered addressed to the nominated print representative for that machine.
• Paper is ordered locally within the division.
• Report any problems to your print representative or call the ISD helpdesk on x25000
• You can find further information about Print@UCL on the ISD website.

Bear in mind UCL’s commitment to Sustainability, only print if absolutely necessary.
How to log in to your phone:

• Press the Applications button

• Using the Navigation Bar to scroll down, use the button in the centre of the bar to select Extension Mobility

• Enter your UserID (ucxxaaa) using the number keys

• Scroll down again and enter your PIN (e.g. 12345)

• Press the Submit softkey

How to log out:

• As above, click Yes when offered to log out

Don’t forget to log in and out of your phone each day.
VOICEMAIL

Accessing voicemail

• From the phone, press the messages button \( 	ext{***} \) and follow the voice prompts.

• You can also access your voicemails online when you are away from the office or from your mobile by dialling \( 020\ 7679\ 7000 \).

• Ensure that your recorded greeting is up to date, that you change your greeting when out of the office and you regularly clear your messages.

• Instructions on transferring calls, conference calling, call forwarding, listening to voicemail online and other features are available on the ISD website.
PART B: TORRINGTON PLACE BUILDING INFORMATION
FIRE SAFETY

In the event of an emergency, leave the building by using the nearest available fire exit. If you discover a fire don’t tackle it: activate the nearest break-glass point.

Assembly points
• East: the opposite side of Huntley Street.
• West: the corner of Torrington and Tottenham Court Road.

Fire Evacuation Marshals
• Each floor has designated Fire Evacuation Marshals (FEMs), who will help evacuate in the event of the fire alarm sounding. Familiarise yourself with your divisional FEM by checking the Responsible Persons Register on UCL’s riskNET system.

Fire Safety Briefings
• Each staff member should have been shown fire exits for the whole building and informed of safety procedures as part of their Fire Safety Briefing on/around Day 1.
• You will be asked to complete, sign and submit a Local Induction & Familiarisation Form (TN086). If you haven’t completed this please contact your Dept. Safety Officer.
In the event of a medical emergency, dial ‘222’ on any internal phone and alert the closest First Aider.

First Aiders
• Each UCL building requires a recommended number of First Aiders, contact details can be found on notices by each of the core lift lobbies.
• Alternatively these staff can be found on the Responsible Persons Register on riskNET. In addition, all reception security staff should be trained in first aid.

First Aid kits
• There should be kits in kitchens and communal areas, these are primarily for First Aiders to use when treating an incident. If you use an item from the kit please inform a first aider on that floor so that stock levels can be maintained.

Reporting
• All accidents and incidents (including near misses) must be reported online.
Access

Staff should show their ID cards to Security as they enter the building.

Entrances

- The main entrance on Torrington Place is open, and staffed, during office hours which are 8am-6pm Monday to Friday.
- Outside of these hours the main door is locked, and access is through the turnstile entrance at the west end of the building. The turnstile entrance is available 24/7.
- Access to the building entrances is automatically given to staff and teams that work within the building.

Floor access

- During office hours all internal doors to Professional Services area are on ‘free access’ to allow movement around the building. Outside of office hours you will need your ID card to open internal doors.
- Staff and contractors who require access, and fall outside of teams based in the building, can request this via their departmental administrator.
VISITORS

The Security team on reception can be reached on either internal extension 41262, or by dialling 020 7679 1262.

If you are expecting visitors, advise Security at reception in advance. Please provide their name, expected arrival time, and instructions on what to do when the visitor arrives.

External visitors
• All external visitors will be required to sign in at reception on arrival and departure.

Internal visitors
• UCL staff are permitted to access the building without signing in. If you are expecting an internal visitor ensure you have given them clear directions as to where to find you.

General assistance
• Staff are requested to help people at building reception if they look lost, and to question people who aren’t known or accompanied.
• Staff should not let people into the building out of hours if they do not have a UCL ID.
POST & COURIERS

UCL deliveries & collections
• Post is delivered to/collected from each division twice a day:
  • morning 8.30am to 9.30am
  • afternoon 2.30pm to 4pm

Post distribution
• Incoming post is distributed with the division via local arrangements, speak to your administration team if you have any queries.

Couriers
• All couriers must be booked for delivery at Mail Services, Level 2 - Loading Bay UCL Institute of Education, 20 Bedford Way, London WC1H 0AL (Service Rd off Thornhaugh Street).
• The recipient will receive a notification of delivery from the UCL Mail Services Team. The parcel will be delivered to Level 6 at 1-19 Torrington Place on the same day.
MEETING ROOMS

There are meeting rooms of varying sizes: you should book a room that is appropriate to the size of your meeting, and cancel rooms if they are not required.

Bookings
• Meeting rooms on all floors can be booked via Outlook by any PS staff member whose division is based in the building.

Meeting room etiquette
• If a booked room is not occupied within 15mins of the booking start time it is deemed to be available, and meetings shouldn’t over-run so as not to hold up the next occupants.
• Be mindful of staff working at surrounding desks when waiting outside a meeting room.
• When vacating a room:
  • ensure that it is tidy and cleared of all mess (papers, catering items etc.)
  • ensure that chairs are placed in position ready for the next users (refrain from taking chairs from other rooms as this inconveniences others)
  • unless the room has automatic lighting, turn off the lights.
EQUIPMENT IN MEETING SPACES

AV & Telephones
• Meeting rooms 803 and 903 are equipped with AV and teleconferencing facilities.

Connecting
• Laptops can be connected directly via an HDMI or Display Port cable, use the remote control to turn on the screen.
• Do not unplug any cables or remove any equipment from any meeting spaces.

If you experience any issues with any of the AV or telephony equipment, contact the ISD Service Desk.
BUILDING ENVIRONMENT
LIGHTING

Office
• The main office overhead lighting is controlled by a central programme which takes into account the time of day and indications of the presence of people.
• It is not possible to manually adjust these lights, if you need lighting to be altered this can be arranged via Estates.
• Some desks do have individual task lights to provide a brighter light for individuals who need it.

Meeting rooms
• There are generally no local controls for the lights, lighting is turned on when people enter the room and turned off when sensors no longer detect a presence in the room.
• If the room does have manual controls, please switch off when you vacate.

If you have any lighting issues, raise a Service Request via the Estates website.
HEATING/COOLING & VENTILATION

Heating & cooling
• Heating and air conditioning units throughout the building are set to keep the room at a standard temperature during working hours.
• It is recommended that you only change the temperature setting and leave the function on Auto rather than selecting cooling or heating.
• If there is a persistent issue with air temperature in your local area, raise an Estates Service Request.

Ventilation
• Office windows do not open anywhere in the building, fresh air is circulated throughout the building via the ceiling vents.
• Fans and heaters are not permitted in the building unless an ergonomic request has been approved.

Wellbeing tip: Staff are encouraged to take a walk at lunchtime to take a break from the office and go out in the fresh air!
There are three types of toilets in the building, all are cleaned and stocked each morning.

**Main male / female toilets**
- Located in the west side of each floor.

**Unisex toilets**
- These are available on the ground floor on the right once you go through the double doors to the main (east) lifts.

**Accessible toilets (also unisex)**
- Located in basement and ground floor next to the main (east) lifts and on the 3rd floor by the west lifts.
- There is an alarm cord in each, if activated it will notify the main reception during office hours. Out of office hours, the notification will divert to the main UCL security desk.

Please raise an Estates Service Request if you experience issues with the toilets.
SHOWERS

Female
• The woman’s shower is located in the main toilets on the 1st floor.

Male
• There are two men’s showers located in the toilets on the 1st floor and 5th floor (west).
BUILDING AMENITIES
KITCHEN

Kitchen
• There is a main kitchen equipped with microwaves, fridges, and hot/cold filtered water.
• Hot food should be prepared and eaten in a kitchen, and refrain from eating strong-smelling food at desks.

Supplies
• Local arrangements should be in place to order and supply sundries such as tea/coffee and milk.

Cleaning & Servicing
• These areas are cleaned on a daily basis.
• Staff in local areas should also ensure that out of date food is removed from the fridge.
• Similarly, local arrangements should be made to clean the fridge regularly by logging an Estates Service Request.

If there are issues with any equipment, inform Estates via a Service Request.
QUIET ROOM

Room usage
• There is a quiet room on the ground floor which can be used for (in no particular order):
  • prayer
  • meditation
  • breastfeeding/expressing
  • emotional distress
  • quiet contemplation
  • first aid or if you feel unwell

Room access
• To use the room, request to sign out the key from main reception.
• Sign the key back in with Security when you leave the room. On no account should this key be retained longer than the period the room is used.

First Aid
• If first aid is required while using the quiet room, please contact Security on reception in the first instance. A list of building first aiders can be found in the core lift lobbies.
There are outdoor facilities for parking and locking bicycles and motorbikes in the parking lot at the rear of the building. Items are left at your own risk, and you are responsible for security (i.e. locking and insurance).

**General access**
- This is accessed using the vehicular entrance on Torrington Place (east end).
- You can enter the basement from this area with your staff ID card once your access has been set up.

**Bicycles**
- Cycle access should be requested through your departmental administrator.

**Motorbikes**
- Motorcyclists may apply for a parking space via the Estates website.
- Once it is approved your access card will automatically be updated.
