**2nd in London**  

QS World University Rankings 2021

- World-leading, world-impacting research*
- 400+ degree programmes
- Students from more than 150 countries
- 30 Nobel laureates
- An award-winning sustainable university^  
- Over 300 student clubs and societies
- In the heart of London, the world’s best student city**

* Research Excellence Framework (REF 2014)  
^ People & Planet University League for environmental and ethical performance  
** QS Best Student Cities 2019

We’re proud of our pioneering history, distinguished present and exciting future. UCL is a great place to be a student for so many reasons.
We have a proud heritage of disruptive thinking, a reputation for game-changing research and a unique multidisciplinary approach to problem solving.
UCL has confronted humanity’s biggest issues since 1826. At that time, attending university was a rare privilege. If you weren’t a man from a wealthy background and a member of the established church, higher education was off limits.

Our founders tore up that rule book. We were the first university in England to welcome students of any religion or social background. We were also the first in England to welcome women to university education.

We have challenged inequality ever since, and we hold a Silver Athena SWAN award in recognition of our progressive work practice. Each year, we invest £13.5 million in bursaries and activities to support students from diverse backgrounds to enter and succeed.

We were also the first university in England to teach subjects such as engineering, architecture and languages. Our pioneering heritage makes us proud, but it’s the future that really excites us.

Since our founding we have continually innovated our teaching methods. Our Connected Curriculum makes research the cornerstone of our students’ activity. Our Arts and Sciences BASc leads the way in interdisciplinary study. Elsewhere, our collaborative teaching methods break down the boundaries between student and teacher, encouraging the bold thinkers of tomorrow.
Studying in London, you’ll be living, learning and growing your network in one of the world’s greatest cities. Through our Connected Curriculum you’ll have the chance to work alongside some of the world’s leading researchers. They will drive you to think more analytically and independently – providing opportunities to undertake research activities of your own and create original output.

We are constantly evolving to meet the needs of our students. Throughout your time here, you’ll have many opportunities to shape our curriculum and how it’s delivered.

Scan the QR code, or search: ‘Discover UCL’ in YouTube to find out more.
Learning as part of an international community of great minds, you will develop the cultural fluency and global outlook that are prized by employers.

Our collaborative approach also helps build the essential skills that make UCL graduates so in-demand, such as communication, teamwork, negotiation, entrepreneurship and project management.

We actively support collaboration between students and staff across the university, synthesizing approaches from different academic disciplines to develop joined-up responses to the world’s most pressing issues.
UCL staff and alumni have won at least one Nobel Prize each decade since the award began in 1901, with more than half of our 30 Nobel laureates born outside the UK.

Our Nobel laureates
1904 – Chemistry
Sir William Ramsay
Discovered the noble gases: helium, argon, neon, krypton and xenon.

1913 – Literature
Rabindranath Tagore
Wrote profoundly sensitive, fresh and beautiful verse.

1915 – Physics
Sir William Henry Bragg
Analysed the structure of crystals using X-rays.

1919 – Chemistry
Sir William Ramsay
Discovered the noble gases: helium, argon, neon, krypton and xenon.

1921 – Chemistry
Frederick Soddy
Invented the concept of isotopes.

1928 – Physics
Owen Willans Richardson
Discovered the law of thermionic emission.

1929 – Physiology or Medicine
Sir Frederick Gowland Hopkins
Discovered growth-stimulating vitamins.

1936 – Physiology or Medicine
Sir Henry Hallett Dale and Otto Loewi
Discovered neurotransmitters.

1938 – Physiology or Medicine
Corneille Jean Francois Heymans
Revealed how respiration is regulated.

1944 – Chemistry
Otto Hahn
Made discoveries leading to the development of nuclear technology.

1947 – Chemistry
Robert Robinson
Discovered the structure of morphine and strychnine.

1955 – Chemistry
Vincent du Vigneaud
Carried out the first synthesis of a polypeptide hormone, oxytocin.

1959 – Chemistry
Jaroslav Heyrovsky
Discovered polarography, widely used in clinical and environmental analysis.

1960 – Physiology or Medicine
Peter Brian Medawar
Discovered the key to successful organ and tissue transplantation.

1962 – Physiology or Medicine
Francis Harry Compton Crick
Discovered the molecular structure of nucleic acids (DNA).

1963 – Physiology or Medicine
Andrew Fielding Huxley
Revealed how activity is co-ordinated by a central nervous system.

1967 – Chemistry
George Porter (Baron Porter of Luddenham)
Devised flash photolysis to observe free radicals.

1970 – Physiology or Medicine
Sir Bernard Katz
Advanced remedies against nervous and mental disturbances.

1988 – Physiology or Medicine
Sir James Black
Discovered the first beta-blocker, propranolol.

1991 – Physiology or Medicine
Bert Sakmann
Discovered the role of ion channels in diseases, revolutionising cell biology.

2000 – Economics
James Heckman
Developed statistical analysis of individual and household behaviour.

2001 – Physiology or Medicine
Sir Paul Nurse
Enabled new avenues of research in tumour diagnostics and therapy.

2007 – Physiology or Medicine
Sir Martin Evans
Introduced gene modifications in mice.

2009 – Physics
Charles Kao
Developed the transmission of light for optical communication.

2013 – Physics
Peter Higgs
Predicted the particle: the Higgs boson.

2013 – Physiology or Medicine
James Rothman
Revealed how substances are trafficked by vesicles in our cells.

2014 – Physiology or Medicine
John O’Keefe
Discovered the ‘inner GPS’ in the brain.

2020 – Physics
Sir Roger Penrose
Proved that the general theory of relativity predicts the formation of black holes.
Our cutting-edge research has a real-world impact on everything from climate change to plastic pollution, infant mortality to social inequality.

We have set six ‘Grand Challenges’ in the fields of global health, cultural understanding, sustainable cities, human wellbeing, justice and equality, and transformative technology. Spanning anything from designing greener cities to fighting global epidemics, these challenges help us translate our world-class research into real-world impact.

The Grand Challenges bring together UCL people from different disciplines to develop joined-up solutions.

UCL staff and students come from richly diverse backgrounds across the world. We use this truly global perspective to help solve the pressing issues of our times.
Predicting extinction risk from climate change
With around 20,000 species of animals and plants facing extinction in the wild, Researchers from UCL Biosciences have played an instrumental role in identifying those species most vulnerable due to climate change and have helped develop new conservation guidelines used the world over.

Map-making by City-makers
UCL researchers together with inhabitants living in the peripheral slopes of the city of Lima used cutting-edge mapping technology to develop a methodology to better understand what is happening in marginalised settlements and inform solutions to improve the living conditions of impoverished dwellers.

Creating colours from coalfields
The discovery of five new commercial paint colours by artist Onya McCausland, from UCL’s Slade School of Fine Art, has led to five industrial sites in the UK being declared as public works of art.

UCL Ventura breathing aid
A team of mechanical engineers from UCL, clinicians from UCLH and industry partners Mercedes-AMG High Performance Powertrains has developed a breathing aid that can help keep COVID-19 patients out of intensive care. The designs and manufacturing instructions of the Continuous Positive Airway Pressure (CPAP) device have been released for free to support healthcare systems across the world during the pandemic.

Scan the QR code, or search: ‘Made at UCL’ to find out more.
Rice Inc

Winner of the Hult Prize 2018, Rice Inc reduces farming waste, having developed an innovative way to dry rice. Its co-founders are Kisum Chan and Lincoln Lee (Biomedical Sciences BSc) who started the business in their third year of study.
Blackwood

Blackwood creates beautiful accessories using natural, sustainable alternatives to animal leather, such as cork leather. Its co-founders are Oskar Zieba (Mechanical Engineering with Business Finance MEng, 2019) and Guerric de Ternay (Affiliate student, UCL Laws 2013/14).

bio-bean

Having developed a process for converting discarded coffee grounds into biofuel, bio-bean has gone from strength to strength. Founded by Arthur Kay (Architecture BSc, 2013), the business has worked with Shell on a project to power London’s buses more sustainably.

Whether you plan to start your own business, tackle global issues or kick-start your dream career, we are here to help develop your entrepreneurial skills and thinking.

Our tailored, free extracurricular entrepreneurship programme, run by UCL Innovation and Enterprise, provides you with the skills, knowledge and hands-on experience you need to get your ideas off the ground and make a difference in the world.

If you want to start your own business our expert business advisors will provide mentoring and support to help steer your venture to success. You can also take advantage of free office space in The Hatchery, our dynamic start-up space at BaseKX in King’s Cross.
We are investing in a university fit for the 21st century and beyond. At UCL you’ll find all the cutting-edge facilities you need to achieve great things.

Cutting-edge facilities

We are over halfway through our 10-year, £1.25 billion investment in creating sustainable spaces and best-in-class facilities – giving our staff and students the tools to take their learning and discoveries further – with many award-winning developments in Bloomsbury already completed.

Designed entirely around our students’ needs, our Student Centre includes 1,000 individual, group and open-plan study spaces, quiet contemplation areas, and easy access to help and support at the dedicated Student Enquiries Centre.

We also have a treasured venue in The Bloomsbury Theatre, which hosts plays, live music and comedy – as well as performances by our students and staff.

UCL’s historic libraries, collections, museums and galleries span everything from Egyptology to pathology, zoology to fine art which are actively used in teaching.
Our sustainable university
Our world-leading sustainability research, addressing the climate and ecological crises, informs the changes we’re making here at UCL right in the heart of London’s leafy Bloomsbury.

Sustainability is at the heart of how we operate. UCL’s award-winning sustainable campus is already powered by 100% renewable electricity and we send no waste to landfill, but our longer-term vision is much more ambitious.

By 2024, all our buildings will be net zero carbon and free from single-use plastics; we will have 10,000m² more biodiverse green space.

As a student at UCL, you will have the opportunity to join one of our many sustainability societies, get growing on campus on our student-led allotment, or sign up to be a Sustainability Ambassador.

Through our teaching programmes, we pass on our knowledge of sustainable best-practice to our students, to ensure that they become sustainability advocates to benefit the wider world.
London is your classroom

Our Bloomsbury campus is a calm haven in the bustling heart of London, and your life in the city is a crucial part of your UCL education.
Bloomsbury itself is the historic home of Virginia Woolf and her ‘Bloomsbury Group’: writers, intellectuals, philosophers and artists who proudly challenged convention in both their lives and their work during the first half of the 20th century.

A wealth of knowledge and culture is on your doorstep at the world-renowned British Museum and British Library. And as part of London’s ‘Knowledge Quarter’, we are surrounded by more than 75 academic, research, cultural, media and technology institutions of all shapes and sizes – from Google to the Charles Dickens Museum.

Students can take advantage of free or discounted exhibitions and lectures, and our central location puts some of the world’s best-known museums and cultural and scientific institutions within walking distance.

With easy transport links across London, to the rest of the UK and continental Europe, there’s always something to do, see and learn.
UCL at Here East: How to find us
A short walk from Hackney Wick, Stratford or Stratford International Stations and easy access from our Bloomsbury campus.

Journey planner options:
1. Euston or King’s Cross – Highbury & Islington – Hackney Wick – 6 min walk
2. Tottenham Court Road – Stratford – Here East bus
3. St Pancras – Stratford International – Here East bus

A place to call home
More than 150 countries are represented in our diverse student community, and you’ll make friends for life from all over the world here.

But first, you need a place to call home while you study. We will guarantee you accommodation in your first year, regardless of where you currently live, as long as:

- you will be a single, first-year undergraduate,
- you have chosen UCL as your firm choice through UCAS by the deadline (currently 31 May of the cycle in which you applied),
- you submit your accommodation application online by the deadline (currently 31 May of the year of entry),
- you have not previously lived or studied at a university in London (inside the M25 motorway).

**Types of accommodation available**

- Catered accommodation in which meals are included (breakfast and an evening dinner from Monday to Friday and lunch at weekends).
- Self-catered accommodation where you will share kitchen facilities (cooker, refrigerator, freezer, kettle, toaster and microwave) to prepare your own meals.

All UCL accommodation is offered for 39 weeks and is located in central London (Zones 1 or 2 of London’s public transport network).

**Students with additional requirements**

- Students with disabilities: we have a limited number of rooms available for students with additional requirements. Contact us for details – accommodation@ucl.ac.uk
- Students with families: we have limited accommodation available for students with families. Contact us for details – accommodation@ucl.ac.uk
- Care experience and estranged students: we will provide 365-day accommodation in the first year and, if needed, for subsequent years of study.

Further details about accommodation can be found on p90.

Moving to a new city as a first-year undergraduate can be a major change, but you’ll find a warm welcome at UCL.

Through our Students’ Union, you’ll make lifelong memories and get the most from London.

A vibrant social life

The Students’ Union is here to help you do more at UCL, to make the most of London and the opportunities you have here. As soon as you join UCL you become a member of the Union and can start taking advantage of all the things it has to offer – like joining as many of the 300 clubs and societies as you want.

Clubs and societies are at the heart of student life at UCL. They’re your social group on campus, your support network and your route to experiences you won’t find anywhere else. More than a third of all students at UCL are members of clubs and societies.

TeamUCL is the collective name for all of our sports teams at UCL. They compete nationally against universities across the UK and there are lots of ways for you to get involved and play and train regularly.

Sport at the Union is award-winningly inclusive*, with an active Pride in Sport LGBT+ campaign and a commitment to helping all students enjoy an active lifestyle, no matter what their level of ability.

Beyond clubs and societies, the Union has so much more to offer.

* BUCS #TakeAStand Award 2017
“The attitude at UCL is both fun and focused. You realise that the people you meet on your programme, in the Cloisters and halls will be future game-changers – as will you – and that is inspiring!”

Our global community
As a UCL student, you become a lifelong member of a truly global community. Our extraordinary alumni, with their bold, brilliant and inquisitive minds, go on to discover and achieve remarkable things across the globe.

Over 300,000 UCL alumni live in more than 190 countries worldwide. We count Nobel Prize winners, poets, novelists, BAFTA winners, Olympians, inventors and Turner Prize-winning artists among our graduates.

From your first day at UCL, this network is there to support and inspire you. Experienced alumni volunteers provide guidance through our exclusive mentoring platform and share their insights through panel discussions, skills workshops and internship opportunities.

You will also have the chance to make valuable contacts to accelerate your career at alumni-led speed networking events and social events, in the UK and overseas.

Wherever life takes you after graduation, UCL’s global community will be there to support you. From international clubs to industry networks, professional development programmes and lifelong library access, there’s no shortage of ways to stay connected.
We are here to support you through any challenges you face while studying here, beginning with a wealth of resources to help new students prepare and settle in – including useful newsletters, apps and guides.

Support when you need it

Our Transition Programme is designed to help you adapt to university life, and includes access to a mentor and social sessions to help you find your feet. You’ll also be assigned a Personal Tutor, who can give you academic guidance and steer you towards any help you might need on practical and personal matters.

New arrivals from overseas are invited to a series of welcome events and activities as part of our International Student Orientation Programme, which runs the week before term starts.

If you need more support, UCL Student Support and Wellbeing offers information, advice and services to help all our students thrive. This includes easy-to-access mental health and wellbeing advisers, counselling, disability assistance, events to help you look after yourself and much more.
We take your future ambitions seriously and provide you with the support you need to realise your full potential. UCL graduates are in-demand and more than 800 employers attend our careers events every year.

Every week, more than 21,000 jobs, internships and work experience opportunities are promoted on the myUCLCareers portal. Through the UCL Talent Bank, we can connect you directly to small-to-medium-sized employers who are actively recruiting UCL graduates.

We also run employer-led coaching in areas such as leadership, negotiation and interview skills; workshops and advice sessions to help with your applications; and dedicated internship programmes.

Many of our services are still available up to three years after you leave.

Career destinations of UCL graduates 15 months after graduation*

This shows the first career destinations of UK/EU students 15 months after their graduation from UCL in 2018. The median starting salary of those graduates in full-time work is £30,000.

* All data taken from the Graduate Outcomes survey undertaken by the Higher Education Statistics Agency (HESA), looking at the destinations of UK and EU graduates in the 2018 cohort.

^ ‘Other’ represents a grouping of activities in which personal circumstances or choice has influenced the graduate’s immediate options, this includes those: travelling (e.g. taking a gap year); looking after the home or family/temporarily sick or unable to work; not employed but not looking for employment, further study or training; permanently unable to work or retired.

Your future career
Faculty of Arts and Humanities

The Bartlett: Faculty of the Built Environment

Faculty of Brain Sciences

Institute of Education (IOE)

Faculty of Engineering Sciences

Faculty of Laws

Faculty of Life Sciences

Faculty of Mathematical and Physical Sciences

Faculty of Medical Sciences

Faculty of Population Health Sciences

Faculty of Social and Historical Sciences

School of Slavonic and East European Studies (SSEES)
Our world-leading faculties

UCL is split into several faculties. Whichever programme you choose, you’ll be surrounded by fellow curious minds, learn from world-class academics and benefit from outstanding facilities. We provide a place to belong, be yourself and realise your potential.

Discover more about each faculty over the following pages.
Faculty of Arts and Humanities

Our faculty spans traditional humanities and the creative arts: Greek and Latin (Classics), English, European and International Social and Political Studies, Fine Art, Hebrew and Jewish Studies, Modern Languages, Information Studies, Philosophy, and Arts and Sciences (Liberal Arts).

- UCL’s arts and humanities are ranked fifth in the world* and our nine departments offer more than 200 distinctive undergraduate degree programmes.
- Students have access to London’s vast range of cultural organisations, including the British Library, British Museum, the National Gallery, the British Film Institute and the Tate galleries.
- The faculty’s progressive approach to teaching and research is rooted in a vibrant, supportive and enabling community. We bring together over 20 languages to offer the widest range of language and language-related degrees in the UK.

* Times Higher Education World University Rankings by Subject 2021

You can find our programmes in:
- Arts and Sciences p56
- Economics, Politics, Geography and Social Sciences p62
- English and Comparative Literature p67
- Fine Art and Art History p68
- Historical and Philosophical Studies p69
- Languages and Cultural Studies p71
The Bartlett is one of the oldest and most innovative faculties of its kind. Our vision is of a world where everything that is built aims to add to the wellbeing of people and the environment.

- The Bartlett is ranked second in the world for Architecture/Built Environment* and the Architect’s Journal AJ100 has ranked the Bartlett School of Architecture the top architecture school for 17 consecutive years.
- Located in London, with a wealth of urban history on our doorstep, we are proud to collaborate with leading institutions from industry, government and beyond.
- From 2020 the Bartlett Promise will help to tackle the lack of diversity within the built environment by providing full funding and additional support for students from under-represented groups.

* QS World University Rankings by Subject 2021

You can find our programmes in:
- Architecture and Planning p54
Faculty of Brain Sciences

UCL Brain Sciences brings together expertise in neurodegeneration and neuroprotection, mental health, psychology and language sciences and sensory systems.

- UCL’s Faculty of Brain Sciences is currently the best place in Europe to study psychology*
- We are home to some of the world’s most influential and creative researchers in the field of brain sciences: UCL is first in Europe and second in the world for neuroscience and behaviour studies^.
- We are committed to solving the greatest global health and wellbeing problems in the brain sciences and are best in the UK for neuroscience, psychiatry and psychology, with more than half of our research in these areas rated as world-leading (4*)**.

* Times Higher Education World University Rankings by Subject 2021
^ NTU Ranking 2020
** Research Excellence Framework (2014)

You can find our programmes in:
- Medicine and Allied Subjects p79
- Psychology and Language Sciences p83
Institute of Education (IOE)

The UCL Institute of Education (IOE) has been ranked first in the world for education for eight years running*. Our work transforms lives through education and social science.

- Our world-class research – from identifying the most effective features of early years education to supporting school-led initiatives to end violence against girls – influences policy and practice around the globe.
- The IOE’s programmes are interdisciplinary, allowing you to draw on methodologies and expertise from fields including sociology, psychology, history, philosophy and economics, and to shape your own degree.
- Research resources, such as birth cohort studies, which follow the lives of thousands of individuals from birth, gather invaluable evidence for shaping public policy.

* QS World University Rankings by Subject 2014–2021

You can find our programmes in:
- Economics, Politics, Geography and Social Sciences p62
- Education p64
- Media p78
- Psychology and Language Sciences p83
Faculty of Engineering Sciences

UCL founded the world’s first laboratory devoted to engineering education more than 180 years ago and is now home to some of the most successful engineering departments in the UK. Our engineers deal with a vast range of challenges, creating solutions that change the world.

– Our integrated approach to engineering education is unique in the UK. In 2017 we were awarded a Collaborative Award for Teaching Excellence by the Higher Education Academy.
– We work closely with industry and have strong links with, among others, Arup, Cisco, GSK, Google, Microsoft and Rolls Royce.
– Our How to Change the World training programme (run with major governmental, NGO and industrial partners) equips our young engineers with the creative and technical skills to solve pressing 21st-century challenges.

You can find our programmes in:
– Business and Management Studies p60
– Computer Science p61
– Economics, Politics, Geography and Social Sciences p62
– Engineering p65
– Physical Sciences p81
Faculty of Laws

UCL Laws is a law school for the world: a diverse and radical community of academics, researchers, students and alumni embedded in a leading research-oriented university.

Eliza Orme (1848–1937) became the first woman in England to earn a law degree when she graduated from UCL Laws in 1888.

UCL Laws students make a valuable contribution to society by taking part in voluntary projects. For example, through the UCL Centre for Access to Justice they offer free legal services to those otherwise unable to afford them.

UCL Laws is consistently listed as one of the top law schools in rankings – second in the UK* and eighth in the world^.

* The Times Good University Guide by Subject 2021 and The Guardian University Guide 2021
^ Times Higher Education World University Rankings by Subject 2021

You can find our programmes in:
– Law p75
Faculty of Life Sciences

UCL Life Sciences offers an outstanding portfolio of programmes in biological and biomedical sciences, neuroscience, pharmacy, pharmacological and pharmaceutical sciences – studied in state-of-the-art facilities with world-renowned researchers and clinicians.

- Our world-class research institutes include the Centre for Biodiversity and Environment Research, the Institute for Healthy Ageing and the Sainsbury Wellcome Centre for Neural Circuits and Behaviour.
- UCL Life Sciences are at the forefront of an exciting Virtual Human project which aims to create digital doppelgangers. In years to come, a virtual model of a patient will enable medical staff to prescribe the best treatment that causes the least side effects or seek the best way to carry out surgery.
- Associated with nine Nobel Prize winners over the years, today UCL Life Sciences continues to change the way we understand the world from the challenges of environmental change to the 3D printing of pharmaceuticals.

You can find our programmes in:
- Biological and Life Sciences p58
- Medicine and Allied Subjects p79
Faculty of Mathematical and Physical Sciences

The faculty encompasses the logical, experimental and mathematical study of our universe. Frontline research feeds directly into our teaching programmes, and our students benefit from access to outstanding facilities.

- Our departments rank in the top 10 for the Mathematical and Physical Sciences in the UK.*
- In addition to first-class laboratories in Bloomsbury, the faculty has its own observatory in north London, where in 2014 Natural Sciences students discovered their own supernova in the M82 galaxy.
- Dame Kathleen Lonsdale, UCL scientist, Quaker and pacifist, conducted ground-breaking research in crystallography and in 1945 was one of the first women ever to be elected a Fellow of the Royal Society.

* QS World University Rankings by Subject 2021

You can find our programmes in:
- Historical and Philosophical Studies p69
- Mathematics and Statistics p76
- Physical Sciences (Chemistry, Earth Sciences, Natural Sciences, Physics and Astronomy) p81
Faculty of Medical Sciences

We are at the forefront of fighting the world’s biggest health problems. You could be the breakthrough. Our range of flexible programmes could kick-start your career in medicine, innovation, pharmaceuticals or public health.

- UCL is ranked number one in London and in the top 10 in the world for medicine*. UCL is number one in Europe for medical technology^.
- UCL’s MBBS is internationally renowned and the additional seven innovative BSc programmes are tailored to the needs of our changing world, equipping students with the discipline and skills needed to set off on a career in medical or biomedical sciences.
- Our pioneering research, leading academics and clinicians, cutting-edge facilities and outstanding partner hospitals and institutions create an unrivalled environment for medical science teaching.

* QS World University Rankings by Subject 2021
^ ShanghaiRanking Global Ranking of Academic Subjects 2020

You can find our programmes in:
- Medicine and Allied Subjects p79
Faculty of Population Health Sciences

Population Health Sciences studies the factors that shape our health, including the social and physical environment, the way we live, healthcare systems and our genes. Our graduates are equipped to improve health equity locally and globally, wherever they are in the world.

- UCL is ranked seventh in the world for public health* and we are the top-rated university in the Russell Group for research in public health^.
- Our researchers have taken a prominent role in advancing public knowledge about COVID-19, working across disciplines to research the effects of the virus on UK and global populations in terms of transmission and genotyping, as well as impacts on BAME communities and other socially excluded groups.
- We collaborate with world-renowned institutions including the World Health Organization, the NHS, Great Ormond Street Hospital and the Wellcome Trust.
- Our Population Health Sciences degree will enable you to work with big data to answer important questions on the obesity epidemic, population ageing, epigenetics and many more.

* Shanghai Ranking Global Ranking of Academics Subjects 2020
^ Research Excellence Framework 2014

You can find our programmes in:
- Medicine and Allied Subjects p79
Faculty of Social and Historical Sciences

Our departments and institutes – Anthropology, Archaeology, the Americas, Economics, Geography, History, History of Art and Political Science – explore the social, political, economic, cultural and environmental processes that have shaped the world over time.

- Our teaching is led by scholars whose research is world-class and our work cuts across the traditional disciplinary boundaries of the social sciences, humanities and sciences.
- Our departments are among the largest centres for their subjects in the UK and our degrees will challenge you to think in new ways and to radically extend your understanding of your discipline.
- Our students have unrivalled access to world-leading resources nearby, including the British Library, British Museum, the Wellcome Collection and the Warburg Institute.

You can find our programmes in:
- Economics, Politics, Geography and Social Sciences p62
- Fine Art and Art History p68
- Historical and Philosophical Studies p69
- Languages and Cultural Studies p71
School of Slavonic and East European Studies (SSEES)

UCL SSEES offers a unique range of flexible programmes – in Business, Culture, Economics, History, Languages, Politics and Sociology – focused on Russia, the Baltics, Central, Eastern and South-Eastern Europe.

- We are a multidisciplinary centre of expertise offering insight into key issues affecting the region – for example, Putin’s evolving relationship with the West; emerging markets; and the rise of populism.
- All students have the chance to learn one of the region’s 10 languages and study abroad at a partner university.
- We are renowned for our public lectures and events. Notable speakers include Maria Alyokhina (activist-member of the band Pussy Riot), journalist Marie Le Conte and economist Thomas Piketty.

You can find our programmes in:
- Economics, Politics, Geography and Social Sciences p62
- Historical and Philosophical Studies p69
- Languages and Cultural Studies p71

We’re the Bartlett, UCL’s Faculty of the Built Environment. We’re here to build a better future.

The Bartlett teaches undergraduate students to observe, understand and change the built environment with intelligence, creativity and wit. In our own community and in society at large, we value creativity, integrity, equity and autonomy in the development of a sustainable, diverse world in which we all can live. Whether your ambition is to design better buildings, plan better cities, build sustainable communities or help meet the challenge of climate change, our programmes could be a big step towards it.

First career destinations:
- Architects
- Architectural and town planning technicians
- Further study (e.g. Master’s programmes)
- Web design and development professionals

Related programmes can be found in:
- Economics, Politics, Geography and Social Sciences p62
- Engineering p65

Did you know?
UCL is ranked first in the UK for architecture and the built environment.

Arts and Sciences

UCL’s liberal Arts and Sciences (BASc) degrees are unlike any other in the UK. They provide enormous flexibility, allowing you to create a bespoke programme incorporating both arts and sciences subjects.

You’ll choose a major and a minor route, one from Cultures/Societies and one from Health and Environment/Sciences and Engineering. You’ll also study a language, plus ‘core courses’ specially designed to help you make links between different subject areas and provide you with the tools necessary for interdisciplinary study. An optional internship at the end of the second year will help to prepare you for the world of work. Innovative methods of teaching and assessment include flipped lectures, vlogs, blogs and presentations.

First career destinations:
- Business and other associate professionals
- Conference and exhibition managers/organisers
- Finance and investment analysts/advisors
- Further study (e.g. Master’s programmes)
- Marketing associate professionals
- Researchers

Entry requirements:
Programme-specific entry requirements (including contextual offers and other qualifications) can be found at: ‘ucl.ac.uk/prospectus’ or scan the QR code.

Biological and Life Sciences

At UCL our research in the biological and life sciences spans an incredible breadth of scientific areas.

From understanding the functioning of the brain through to structural, molecular, cell and developmental biology, genetics, biochemistry, pharmacology, ecology and biodiversity, we are finding answers to some of the most important and urgent problems facing humans and other animals. All our academic researchers are active teachers and educators. You can choose one of our broad entry programmes such as Biological or Biomedical Sciences, or focus your studies in a specialist degree.

First career destinations:
- Authors, writers and translators
- Biochemists/medical scientists
- Biological scientists
- Business and related associate professionals
- Further study (e.g. MBBS/Master’s/PhD programmes)
- Laboratory technicians
- Marketing associate professionals

Related programmes can be found in:
- Arts and Sciences p56
- Medicine and Allied Subjects p79
- Physical Sciences p81

Did you know?
UCL is ranked third in the UK for life sciences.

Business and Management Studies

The UCL School of Management is developing entrepreneurial leaders for the next generation of data-driven, technology-intensive organisations.

Our programmes are developed in consultation with industry, with your future career in mind. On graduation, you will have strong leadership and communication skills and the ability to work flexibly, creatively and internationally in a range of areas, including banking and financial companies, consulting and tech. We offer exceptional support to our students in their search for a career, as well as a range of placement or internship options to give you hands-on experience to complement your study.

- **First career destinations:**
  - Business and related associate professionals
  - Finance and investment analysts/advisors
  - IT and telecommunications professionals
  - Management consultants and business analysts
  - Programmers and software development professionals
  - Sales accounts and business development managers

- **Related programmes can be found in:**
  - Computer Science p61
  - Engineering p65

**Entry requirements:**
Programme-specific entry requirements (including contextual offers and other qualifications) can be found at: ‘ucl.ac.uk/prospectus’ or scan the QR code.

Computer Science

Studying computer science develops analytical and problem-solving skills fundamental to a huge range of careers in computing and beyond.

Our degrees, many taught by world-leading researchers, provide a solid foundation in an ever-changing field. Teaching combines theory and practical sessions, with an emphasis on solving real-world problems. We collaborate with global computer companies, as well as financial, health and other sectors, to give you industry project experience and develop your team-working skills throughout your degree. Our Computer Science BSc/MEng balance theory and strong software development skills, while the Mathematical Computation MEng focuses more on mathematics and theoretical computer science.

First career destinations:
- IT and telecommunications professionals
- IT business analysts, architects and system designers
- Management consultants
- Programmers and software development professionals
- Web design and development professionals

Related programmes can be found in:
- Business and Management Studies p60
- Mathematics and Statistics p76

Entry requirements:
Programme-specific entry requirements (including contextual offers and other qualifications) can be found at: ‘ucl.ac.uk/prospectus’ or scan the QR code.

This degree prepares students to take a lead role in understanding and transforming society through the multifaceted lens of education.

Education is at the heart of global efforts to create more fair and equal societies. This interdisciplinary degree draws on sociology, philosophy, psychology and history, to provide our students with the critical tools necessary to reflect on education as a dynamic force at the centre of social and political change.

- **First career destinations:**
  - Child and early years officers
  - Educational support assistants
  - Further study (e.g. PGCE, Master’s and PhD programmes)
  - Primary and nursery education teaching professionals
  - Special needs education teaching professionals

Engineers use insights and discoveries from across the academic spectrum to develop products and processes that truly change the world.

From fluid flow in blood vessels to the design of ships, from the processing of medicines to the generation and distribution of energy, engineers solve problems for the good of humanity. From the beginning of your degree you’ll be given a grounding in the fundamentals of engineering, with a focus on cross-team working, real-world scenarios and professional skills. Whichever discipline you choose to specialise in, you’ll be ready upon graduation to make an impact in the world, with potential careers in sectors from finance and business to energy and project planning.

**First career destinations:**
- Engineering professionals
- Finance and investment analysts/advisers
- Management consultants and business analysts
- Programmers and software development professionals

**Related programmes can be found in:**
- Architecture and Planning p54
- Business and Management Studies p60
- Economics, Politics, Geography and Social Sciences p62

Key: ✈ Study abroad  🌐 Placement or internship opportunity  🔍 Accreditation  See p85 for explanation of symbols

Our degrees require you to undertake careful critical and creative reading, reflection and writing. We aim to develop your analytical and interpretative skills, allowing you to develop a sensitivity to subtext and context, to be able to argue both sides of a case and to undertake research in order to present a well thought-through argument.

First career destinations:
- Arts officers, producers and directors
- Further study (e.g. Master’s programmes, Graduate Diploma in Law)
- Journalists, newspaper and periodical editors
- Marketing associate professionals
- Public relations professionals
- Teaching and other educational professionals

Related programmes can be found in:
- Arts and Sciences p56
- Economics, Politics, Geography and Social Sciences p62
- Historical and Philosophical Studies p69
Whether you’re a practitioner or a theorist, a creator or a critic, UCL offers outstanding staff, facilities and expertise across a variety of degree programmes in the prestigious Slade School of Fine Art and Department of History of Art.

A world-leading centre of scholarship in the history, practice and theory of art, our central location in London gives you easy access to national collections such as the Tate and National Gallery and a wealth of specialist and independent galleries and collections, not to mention UCL’s own museums and collections, to inform and enrich your learning.

**First career destinations:**
- Artists
- Conference and exhibition managers and organisers
- Further study (e.g. Master’s programmes)
- Graphic designers
- Photographers, audio-visual and broadcasting equipment operators

**Related programmes can be found in:**
- Economics, Politics, Geography and Social Sciences p62
- Historical and Philosophical Studies p69
- Languages and Cultural Studies p71

**Entry requirements:**
Programme-specific entry requirements (including contextual offers and other qualifications) can be found at: ‘ucl.ac.uk/prospectus’ or scan the QR code.

Historical and Philosophical Studies

This wide-ranging subject area covers everything from the history of the world, the ideas of philosophers ancient and modern and practical and analytical techniques for discovering how our ancestors lived.

Students on these degrees develop strong research and analytical skills and a sensitivity to different cultures and ideas. They learn to communicate effectively verbally, visually and in writing to diverse audiences. Studying these subjects could lead to careers in government, international agencies and non-governmental organisations (NGOs), consultancy (economic, political risk, security, marketing), financial services, law, media, teaching, heritage and museums, as well as academia.

First career destinations:
- Authors, writers and translators
- Business and related associate professionals
- National government administrative occupations
- Public services associate professionals
- Teaching and other educational professionals

Related programmes can be found in:
- Arts and Sciences p56
- Economics, Politics, Geography and Social Sciences p62

See p85 for explanation of symbols
A degree in this area equips students with skills much sought after by employers, such as the ability to speak, understand and write in a foreign language; intercultural understanding; translation and communication skills; and critical and analytical rigour. You may choose languages that you have studied before or start others from scratch, depending on the programme. The year abroad, integral to most degrees, allows you to immerse yourself in another culture at one of our prestigious overseas partner institutions.

First career destinations:
- Authors, writers and translators
- Business and related associate professionals
- Further study (e.g. Master’s programmes)
- Marketing associate professionals
- Public relations professionals
- Teaching and other educational professionals

Related programmes can be found in:
- Arts and Sciences p56
- Economics, Politics, Geography and Social Sciences p62
- English and Comparative Literature p67
- Fine Art and Art History p68
- Historical and Philosophical Studies p69

Did you know?
Languages offered to UCL students include Dutch, Finnish, Hindi, Hungarian, Italian, Mandarin, Norwegian, Yiddish and Ukrainian.
Did you know?

English war correspondent Clare Hollingworth, the first to report on the Nazi invasion of Poland that triggered the Second World War, attended UCL's School of Slavonic and Eastern European Studies in the 1930s.

Modern language combinations

This grid shows the range of languages that can be combined (subject to entry requirements and availability) to create a four-year degree programme. The final degree awarded on completion will reflect whatever combination you choose, for example, Bulgarian and French BA, Russian and Spanish BA.

You can combine the study of two languages on an equal basis; either two languages that you have already studied, or one language at beginner’s level alongside one you already know.

French and Spanish are not available at beginner’s level within these combinations. If you wish to study French or Spanish from beginner’s level, you can apply for the Language and Culture BA (see below), where they are available as minor languages.

For most combinations, it is also possible to study two languages from beginner’s level if you have an A level (or equivalent) in any modern foreign language.

If you wish to combine two Scandinavian languages, please see the Scandinavian Studies BA (see p73) or Icelandic BA (see p73).

Entry requirements:

Programme-specific entry requirements (including contextual offers and other qualifications) can be found at: ‘ucl.ac.uk/prospectus’ or scan the QR code.

Law

UCL Laws is consistently ranked as one of the UK’s top law schools, recognised for the quality of its teaching by both students and the legal profession.

Through lectures, seminars and small group tutorial teaching, you can explore the principles of law and understand its role in governing the relations between the individual, the state, and society. You will be encouraged to develop a critical understanding of how the law works and how it can be changed. Students benefit from specialist career support and can choose to participate in an array of activities, including mooting, pro-bono opportunities and an exciting and varied events programme, organised in conjunction with the Student Law Society.

First career destinations:
- Business and related professionals
- Further study (e.g. Legal Practice Course, LLM)
- Journalists, newspaper and periodical editors
- Solicitors and legal professionals

Related programmes can be found in:
- Economics, Politics, Geography and Social Sciences p62

Entry requirements:
Programme-specific entry requirements (including contextual offers and other qualifications) can be found at: ‘ucl.ac.uk/prospectus’ or scan the QR code.

Mathematics and Statistics

So many activities and industries – engineering and science, business and finance, computing – depend, in large part, on mathematical and statistical insights.

Our degree programmes are intellectually challenging. They will develop your imagination and your ability to think strategically and argue clearly. You will gain advanced quantitative and computing skills, as well as honing your logical, analytical and problem-solving abilities, giving you a wealth of options for your future career. Our graduates go into a diverse array of careers and a large proportion go onto further study in both theoretical and applied fields.

First career destinations:
- Business and related associate professionals
- Chartered and certified accountants
- Finance and investment analysts/advisors
- Further study (e.g. Master’s/PhD programmes)
- IT business analysts, architects and system designers
- Programmers and software development professionals

Related programmes can be found in:
- Arts and Sciences p56
- Computer Science p61
- Economics, Politics, Geography and Social Sciences p62
- Engineering p65
- Historical and Philosophical Studies p69
- Physical Sciences p81
Did you know?

The mathematical physicist Sir Roger Penrose, who was awarded the Nobel Prize for Physics in 2020, graduated from UCL with a first-class degree in Mathematics.

Entry requirements:
Programme-specific entry requirements (including contextual offers and other qualifications) can be found at: ‘ucl.ac.uk/prospectus’ or scan the QR code.

UCL's Media degree sets the benchmark for ambitious future media professionals, combining the highest standards of academic and critical rigour with media practice and state-of-the-art professional skills and providing the opportunity to take up a work placement drawing on London’s rich media environment.

You will benefit from world-class research in the media field, and will gain an understanding of the exhilarating possibilities of the digital era: how the media is made, how it is experienced, how it functions in your world, and how it offers you expressive opportunities.

You will reach an advanced level in film-making or in digital game and interactive media, or both: two of the most important media forms for the UK economy. You will develop your own projects using brand-new, cutting-edge media studios and will exhibit your work in the end-of-degree show.

First career destinations:
The first cohort of students admitted to the Media BA are not due to graduate until 2024. Therefore, no first career destinations for students on this programme are currently available.

Medicine and Allied Subjects

Understanding human health, the causes of and contributors to disease and the treatment of disease, is fundamental to our society. It necessitates study across human biology, medicine and the social sciences, requires creativity and is intellectually demanding.

Our degrees provide a host of options for careers across medicine and the biomedical sciences, including life as a doctor, research scientist, pharmacist or a variety of other fulfilling science- or medicine-related professions. Our graduates will have a robust and fundamentally transferable skill set of critical analysis, data interpretation, communication and independent thinking.

First career destinations:
- Biochemists, medical scientists
- Further study (e.g. Master’s/PhD programmes)
- Health professionals
- Medical practitioners
- Pharmacists

Related programmes can be found in:
- Arts and Sciences p56
- Biological and Life Sciences p58
- Engineering p65

Physical Sciences

This area covers the natural sciences linked to the study of inanimate objects, forces and properties of the cosmos – from molecules to galaxy clusters, from the Earth’s core to the edge of the observable universe.

Study in these areas is renowned for developing highly sought-after analytical skills, the ability to undertake field and laboratory research and an understanding of mathematics and the principles and techniques of your chosen subject. A scientific training also equips you with practical transferable skills in rational argument and problem-solving, perfect for careers in areas such as research, design, development, computing, finance, planning and teaching.

First career destinations:
- Business and related associate professionals
- Environment professionals
- Further study (e.g. Master’s/PhD programmes)
- IT business analysts, architects and system designers
- Management consultants and business analysts
- Programmers and software development professionals

Did you know?
In 2019, UCL researchers detected water vapour in the atmosphere of a super-Earth with habitable temperatures in a world first.
Psychology and Language Sciences

UCL is a world leader in research and teaching of mind, behaviour and language.

Our researchers cover a range of disciplines such as cognition, neuroscience, linguistics, education, communication, neurological disorders, mental health, phonetics and development across the human lifespan. Our degrees offer you the chance to acquire quantitative and qualitative skills by critically evaluating research data and conducting your own research studies. In addition to subject-specific skills you will also develop a range of highly transferable skills including problem-solving, communication, data analysis, writing for different audiences and critical thinking, that are essential for a range of graduate careers, which could include law, computing, healthcare, marketing, commerce and industry.

First career destinations:
- Further study (e.g. PGCE, Master’s and PhD programmes)
- Human resources and industrial relations officers
- Marketing associate professionals
- Teaching and other educational professionals
- Therapy professionals

Related programmes can be found in:
- Biological and Life Sciences p58

Key: ✈️ Study abroad  🏦 Placement or internship opportunity  🏫 Accreditation  See p85 for explanation of symbols

Did you know?

UCL is ranked third worldwide for psychology.

Times Higher Education World University Rankings by Subject 2021.
First career destinations
This shows a selection of first career destinations for programmes in the section, taken from the Graduate Outcomes survey carried out by the Higher Education Statistics Agency (HESA) for 2018. The survey looks at what UK/EU graduates have gone on to do approximately 15 months after graduating from UCL.

Related programmes
Many of our degrees are interdisciplinary, working across two or more subject areas – so it’s possible that you’ll find programmes of interest in more than one section. We have indicated where there are overlaps so you can see the full choice of programmes available to you.

Study abroad
Programmes with study abroad as an integral part of the curriculum – for example, programmes in the Languages section – are marked with this symbol. Please note that you may also choose to study abroad as an option within many other programmes too.

Placement or internship opportunity
This symbol indicates programmes where a placement or internship opportunity is an integral part of the curriculum – for example, the Pharmacy MPharm. Please note that many other programmes also offer optional placements or internships.

Accreditation
Many degrees are accredited by professional bodies, meaning that when you graduate you will either be eligible for membership, or will have fulfilled the academic requirements for membership, of the accrediting body. Our Law programmes are compliant with the QAA Subject Benchmark Statement for Law and contain the Foundations of Legal Knowledge. Completion of the Medicine MBBS BSc enables provisional General Medical Council (GMC) registration.
Entry requirements

We’re seeking the brightest minds to join the UCL community and you must satisfy our specific entry requirements to study here.

For A levels, UCL typically makes offers in the range of A*AA-ABB. For all programmes, you must have at least two A levels from our list of preferred subjects.

Please note that we do not consider General Studies or Critical Thinking to meet the entry requirements for any of our programmes.

As well as A levels, we accept a wide range of other UK and overseas qualifications, for which requirements will be listed under each individual programme.

Please note that for some programmes there may be additional admissions tests that will need to be taken. These will be indicated on the programme page in the online Prospectus.

In addition, if you are not a national of a majority English speaking country (as defined by the UK Visas and Immigration, Home Office) you must provide recent evidence of your English proficiency. The level required for each programme is shown on the relevant page in the online Prospectus.

For more information about entry requirements (including GCSE requirements which vary across undergraduate programmes), accepted qualifications and English language requirements, see the QR code above.

Access UCL – contextual offer

As part of our commitment to increasing participation from underrepresented groups, students may be eligible for a contextual offer as part of the Access UCL scheme. The contextual offer will be a lower offer than the standard UCL offer and is listed under each programme on the online Prospectus page. For more information on eligibility criteria for the Access UCL scheme, visit: ucl.ac.uk/prospectus
How to apply

If you’re inspired by what we offer, and meet our entry requirements, we look forward to reading your application. Here’s what you need to do.

1. Find your degree programme

It’s important to research the degree programmes and universities that interest you before you make your choices. You can find out detailed information about each of our programmes by visiting ucl.ac.uk/prospectus. You could also attend one of our Open Days, see ucl.ac.uk/openday.

2. Apply online

Undergraduate applications to UCL are made through UCAS. Our UCAS code is UCL U80; there is no campus code. Advice on completing your application, including fees, is on the UCAS website: ucas.com

For more information about the application process including deadlines, please see the QR code above.

3. Considering your application

For more information on how we assess applications and when we will respond, please see the QR code above.

The selection criteria may vary across programmes at UCL. Each programme page on the online prospectus will have specific selection criteria including information about interviews, selection events or open days (if relevant).

Student selection

We strive to admit the academically brightest students to UCL, regardless of background – those who are enthusiastic and passionate about learning, and who will make a positive contribution to university life and gain the most from their years of study here. In fact, UCL was founded to open up education in England for the first time to those who had been excluded from it. That commitment remains as strong today as it was back in 1826.

Our Equality, Diversity and Inclusion Policy and Strategy underlies every aspect of our student selection process. We want to admit excellent students who are likely to complete their degree programme successfully and derive benefit from it, regardless of age, disability, ethnic origin, gender identity, marital status, sex, sexual orientation, number of dependants and religious or political beliefs. We positively encourage and welcome applications from members of underrepresented groups at UCL.

UCL’s Access and Participation Plan (ucl.ac.uk/access) outlines our commitment to widening participation at UCL. We spend around 30% of our additional fee income on access and success measures, including the Access UCL scheme – see QR code above.

Visa requirements

If you think you may require a visa to study in the UK, you should visit: ucl.ac.uk/students/immigration-and-visas. This provides more information about the types of visa, application processes and our requirements.
Our fees can vary depending on the modules you choose and your country of origin. Please take the time to familiarise yourself with the information below.

**Tuition fees**

UCL's annual tuition fee covers all elements of your tuition, registration and examination (field courses are not included). However, optional modules taken elsewhere in the University of London may attract an additional fee. Fees for accommodation are charged separately. UCL offers several 'Dual Degree' programmes where students spend half of their degree studying at UCL and the other half at a university overseas (these are distinct from Year Abroad or International programmes). In these cases, fees are payable to UCL for the time spent studying at UCL, and to the other host university for the time spent there. More details of these can be found at: [ucl.ac.uk/prospectus](http://ucl.ac.uk/prospectus)

Please note that the information on this page applies to the 2021/22 academic year. Fees for 2022 entry will be published on the UCL Students website ([ucl.ac.uk/students/fees-and-funding](http://ucl.ac.uk/students/fees-and-funding)) as soon as they are available.

**How tuition fees are classified**

The level of fee will depend upon whether you’re classed as a UK, Overseas or Islands student. You may already know into which category you fall but this will be confirmed if you are offered a place at UCL.

You are not required to pay upfront fees. You can apply to the Student Loans Company for a Tuition Fee Loan and your fees will be paid directly to UCL on your behalf. Loan repayments are only made once you have left university and are earning over £26,572 per year. Please see [gov.uk/student-finance](http://gov.uk/student-finance) for further information.

**Tuition fees for overseas students**

For 2021 entry, UCL's tuition fees for overseas students range between £21,600 and £36,900 per year. The vast majority of our undergraduate programmes charge a fixed fee every year for overseas students (Medicine MBBS is an exception) and these won’t change during your time with us, so you know upfront exactly how much you’ll need to pay.

**Note for EU students: UK withdrawal from the European Union (EU)**

The UK has now formally left the EU. Students from the EU, EEA and Switzerland who start their programme of study in 2021 or later may no longer be eligible for the UK (Home) fee status and will pay fees at the overseas rate.

Please visit our dedicated website [ucl.ac.uk/brexit](http://ucl.ac.uk/brexit) to read more about UCL and Brexit.
Sources of funding

University is an investment in your future. Depending on your circumstances, there are many sources of financial support to make higher education more accessible.

Sources of funding for UK students

- **Maintenance Loan from the Student Loans Company** – see [gov.uk/student-finance](http://gov.uk/student-finance)
  
  For students from Scotland, Wales or Northern Ireland, there is a different process and funding package available:
  - Scotland – see [saas.gov.uk](http://saas.gov.uk)
  - Wales – see [studentfinancewales.co.uk](http://studentfinancewales.co.uk)
  - Northern Ireland – see [studentfinanceni.co.uk](http://studentfinanceni.co.uk)

  If you live in the Channel Islands or Isle of Man please contact your education authority for funding information.

- **UCL Undergraduate Bursary** – this is a means-tested bursary of up to £2,500 per year – see [ucl.ac.uk/scholarships](http://ucl.ac.uk/scholarships)

- **UCL Scholarships** – we have a range of schemes available – see [ucl.ac.uk/scholarships](http://ucl.ac.uk/scholarships)

- **Care Leaver Bursary**, aimed at students who are care experienced – see [ucl.ac.uk/care-leavers](http://ucl.ac.uk/care-leavers)

- **Disabled Students’ Allowance** – see [gov.uk/disabled-students-allowances-dsas](http://gov.uk/disabled-students-allowances-dsas)

- **Students with dependants** – see [gov.uk/student-finance/extra-help](http://gov.uk/student-finance/extra-help)

- **A range of additional scholarships and bursaries are available each year, based on financial need and/or academic merit** – see [ucl.ac.uk/scholarships](http://ucl.ac.uk/scholarships)

- **Employment** – there are plenty of opportunities to find varied and reasonably paid part-time work in London. The Students’ Union website lists opportunities at [studentsunionucl.org/human-resources/jobshop](http://studentsunionucl.org/human-resources/jobshop)

Note for EU students: UK withdrawal from the European Union (EU)

The UK has now formally left the EU. Students covered by the EU Withdrawal Agreement may be able to access Tuition Fee Loans and Maintenance loans, depending on their status under the EU Settlement Scheme and their residency. See [ucl.ac.uk/scholarships](http://ucl.ac.uk/scholarships) for more details.

Sources of funding for overseas students

- **UCL Scholarships** – we have a range of schemes available – see [ucl.ac.uk/scholarships](http://ucl.ac.uk/scholarships)

- **Employment** – International students who require a visa or prior entry clearance are normally permitted to work for up to 20 hours per week during term time and full-time in the vacations. This restriction applies to voluntary as well as to paid employment – see [ukcisa.org.uk](http://ukcisa.org.uk) for more information.

If you have financial problems during your degree

The UCL Financial Assistance Fund may be able to help if you experience unexpected financial hardship during your degree; there is also an emergency loan scheme for students whose funding has been delayed. Eligibility requirements apply – see [ucl.ac.uk/students/funding/financial-support](http://ucl.ac.uk/students/funding/financial-support) for more details.

For further information

A good starting point for further information about student finance is [gov.uk/student-finance](http://gov.uk/student-finance) if you’re a UK student, or your local Ministry of Education if you’re an overseas student.

You can find out more about UCL fees and funding – see [ucl.ac.uk/students/fees-and-funding](http://ucl.ac.uk/students/fees-and-funding)

Your living expenses

Living costs may vary greatly from student to student, depending on individual needs and lifestyle. To guide you, UCL has estimations of how much students might spend on living costs.

For an undergraduate student living in a UCL Hall of Residence this is likely to be around £291 per week, based on a 39 week year – see [ucl.ac.uk/scholarships/how-much-does-it-cost-study-ucl](http://ucl.ac.uk/scholarships/how-much-does-it-cost-study-ucl)

Additional costs on some degree programmes

Students on certain degree programmes will incur costs in addition to their tuition fees; for example, for materials or books, or costs related to carrying out fieldwork. For full details about possible additional expenses, contact the department that provides the programme.
Accommodation

Food and accommodation are one of the biggest costs of studying at university, so you need to choose your options carefully to suit your needs and budget.

All the information you need about the application process and details of all our accommodation can be found online (see QR code). The majority of the accommodation available is managed by UCL. Some accommodation is managed by partners such as the University of London or private operators.

What you get and what it might cost

Our accommodation fees include room rental and use of communal areas; maintenance within your Hall; cleaning of shared bathrooms, kitchens and communal areas; utility charges, including Wi-Fi; basic contents insurance; and 24/7 support – as well as vibrant UCL communities led by residents. The fees you pay vary depending on location and facilities.

Each of our sites is managed and run by experienced and knowledgeable managers and student residence advisers (SRAs). Their responsibilities range from wellbeing to out-of-hours support, ensuring you have an exceptional student experience. All of our accommodation has secure access, as your security and wellbeing is our main priority.

As a guide, for the 2020/21 session fee ranges were as follows:

**UCL catered accommodation**
- Twin room (not en-suite):
  £160.79–£175.91 per week
- Single room (not en-suite):
  £192.43–£240.59 per week

**UCL self-catered accommodation**
- Twin room:
  £99.33–£138.11 per week
- Single room (not en-suite):
  £130.97–£231.07 per week
- Single room (en-suite):
  £228.27–£297.36 per week

Fees for UCL accommodation are updated yearly and appear online as soon as they are set. Fees for halls operated by the University of London are set in the spring of the year of entry.

Find out more at ucl.ac.uk/accommodation or halls.london.ac.uk/accommodation

After your first year

Most students look for privately rented accommodation in year two and beyond, often sharing with friends.

UCL partners with other providers such as University of London and private operators, that offer alternative accommodation available for returning students, the majority under four miles from our Bloomsbury campus. These rooms are offered at a special rate for UCL students, and so prices for the same properties may be higher on other websites.

Contact us at accommodation@ucl.ac.uk or facebook.com/uclaccommodation

Discover UCL for yourself

There’s always something exciting going on at UCL and our central London location makes finding us easy. We look forward to meeting you.

Come to one of our Open Days

Our next UCL Undergraduate Open Days will be hosted online in June 2021. Our Virtual Open Days are packed with subject admissions talks providing you an insight into our degree programmes. You will have the unique opportunity to speak to admissions staff and academic tutors and also interact with current students and alumni to find out what studying at UCL is really like.

See ucl.ac.uk/openday for more details.

Although campus tours, UK and international visits are suspended during the pandemic, you can register your interest to receive details of our guided tours when they resume. See ucl.ac.uk/guided-tour for details.

If you’d like to find out more

If you have a general enquiry about UCL and our degree programmes, feel free to contact us:

study@ucl.ac.uk
+44 (0)20 3370 1214

Access and Widening Participation

UCL runs a range of summer schools, taster days and other activities for prospective students from under-represented groups. To find out more, including the eligibility criteria for these, visit: ucl.ac.uk/wp

How to get to us

Whether you’re coming from elsewhere in London, the UK or overseas, it’s easy to get to us. See ucl.ac.uk/maps/public-transport for directions.
