34 MINUTES OF 10 FEBRUARY 2016 MEETING

34.1 Approved – the Minutes of the Academic Board meeting held on 10 February 2016 [AB Minutes 17-33, 2015-16].

35 MATTERS ARISING FROM THE MINUTES

35A APPOINTMENTS [PAPER 2-12 (15-16)]

35A.1 The last meeting of AB had run over time before this matter could be discussed. Members did not wish to object to the appointments but raised questions about the perceived conflict of interest when members of Council were also members of the Provost’s Senior Management Team.

35A.2 The Provost reported that the CERG was considering the membership of Council and whether members of Senior Management Team should be allowed to sit on Council. The CERG will make a recommendation about this, which will be submitted to AB for comment before Council confirm the proposals.

35A.3 It was noted that a Special Meeting of Academic Board would be convened to discuss and comment on the CERG’s report before it would be discussed at Council.

36C  White Paper Government Bill

36C.1 A White paper and draft Higher Education Bill that will take forward the Government’s plans for further expansion of the higher education sector, the teaching excellence framework and redistributing the responsibilities of HEFCE.

[PAPER 3-01, 2015-16]

37.1 *Received* – a presentation to the paper from the Vice-Provost (Enterprise and London), Dr Celia Caulcott

37.2 The VP (Enterprise and London) stated that UCL’s Enterprise activity would continue to build on the successes of her predecessor in particular, the research impact in REF, supporting student entrepreneurship and progress in consultancy activity through UCL Consultants.

37.3 The VP (Enterprise and London) commented on the importance of UCL engaging externally to grow the impact of our excellence in research and to ensure that UCL maintains strong links with business and communities across London.

37.4 The VP (Enterprise and London) explained that the next phase of UCL’s Enterprise strategy would focus on a more explicit alignment with UCL 2034, building on the achievements from REF 2014, better use of the UCL Estate and the benefits of UCL’s location in London and embedding enterprise and innovation in the curriculum and academic plans of Faculties and Departments.

37.5 In response to members comments, the VP (Enterprise and London) reported that her team would assist Faculties and Departments by interpreting industry knowledge and work with UCL to understand and map sector requirements to the work offered by UCL. Funding streams would be available to support colleagues in aligning UCL with sector activities.

**[PAPER 3-02, 2015-16]**

Each Grand Challenge would have a Co-Chair, executive group and a governance group to run themes that underpin the challenges.

38.4 More information on the Grand Challenges would be circulated through UCL news which would allow staff opportunities to provide further comments and suggestions.

38.5 In response to members’ comments, the VP (Research) indicated that different avenues of funding and resources will need to be accessed so that new communities can work together on the Grand Challenges. This will also impact on the internal processes which would need to be considered when working together to avoid duplication or working with competing systems.
