Preliminary Formal Business

117 DECLARATION OF INTERESTS

Noted

117.1 Any member of Council who had (or who knew of a family member who had) a material, personal, financial or other beneficial interest in any item on the Agenda was requested to declare that interest at the beginning of the meeting in order that such declaration could be recorded in these minutes. No such interests were declared.

118 QUEEN’S BIRTHDAY HONOURS 2014

Noted

118.1 APPENDIX C 6/90 (13-14) – a paper detailing members of the UCL community recognised in the Queen’s Birthday Honours list 2014.

Reported

118.2 On behalf of Council the Chair congratulated all those concerned.

119 MINUTES

Approved

119.1 The Minutes of the Council meeting held on 20 May 2014 [Council Minutes 98-116, 2013-14] were confirmed by Council and signed by the Chair.

120 FINANCE COMMITTEE MINUTES

Noted

120.1 The draft Minutes of the Finance Committee meeting held on 10 June 2014.

121 MATTERS ARISING FROM THE MINUTES

[See Minutes 122, 125 and 140 below]
Matters for discussion

122 PROVOST’S BUSINESS

Received

122.1 An oral report from Professor Michael Arthur, President and Provost.

122A Dean of Faculty of the Built Environment

Reported

122A.1 Professor Alan Penn had been reappointed Dean of the Faculty of the Built Environment with effect from 1 September 2014 for a period of five years.

122B UCL Academy

Reported

122B.1 A report on the governance arrangements for the UCL Academy was at APPENDIX C 6/109 (13-14) [see Minute 140 below]. A report to the Sponsor from the UCL Academy had been circulated to Council in advance of the meeting. It was expected that OFSTED would return for a monitoring visit in approximately eight weeks.

Discussion

122B.2 The Academy had a unique and innovative ethos and enjoyed strong feedback from parents. It had nevertheless faced a number of significant challenges over the past year, including the delayed completion of the building, the doubling of the student cohort, and a range of challenges associated with establishing systems from scratch. A new school improvement partner had recently been appointed and coaching support put in place for the Head Teacher; expert colleagues at the Institute of Education were also being consulted. Council attached great importance to the early and rigorous implementation of the Academy’s improvement plan under the strict supervision of the governing body.

122C Institute of Education

Reported

122C.1 Negotiations relating to the proposed merger of UCL and the Institute of Education were on course for a final proposal to be submitted to the IoE and UCL Council meetings on 8 and 20 October 2014 respectively. Due diligence was ongoing but had not uncovered any major issues to date.
HEFCE Catalyst Award

Reported

122D.1 Notification had been received in recent days of a £7.5m award from the HEFCE Catalyst fund for the Biomedical Research Institute established by UCL and the London School of Hygiene and Tropical Medicine.

FINANCIAL UPDATE

Received

123.1 APPENDIX C 6/91 (13-14) – a report on the financial results for the year to 30 April 2014 and the forecast for 2013-14.

123.2 An oral report from Mr Phil Harding, Director of Finance and Business Affairs.

Reported

123.3 The full year forecast position had improved since the Q2 forecast, principally as a result of an increase in profit on disposals. The operating surplus at year end currently forecast a deficit position of £1.5m, reflecting an anticipated rise in expenditure in the last quarter. Early indications however were that this rise would not be as sharp as had been predicted, so there was reason to believe that the operating surplus would turn out slightly above budget.

123.4 Provision had been made for the reduction in HEFCE income for 2012-13 and 2013-14 discussed at the last meeting [Council Minute 102.3, 2013-14], although an appeal against this decision had been submitted.

123.5 All three Schools were showing an improved performance over Q2, though SLMS was still falling short of its target contribution. The positive variance of £1m in Professional Services was primarily due to overachievement in residences income over the summer period.

123.6 Mr Harding drew attention to a need to improve the commentary on the reasons behind any significant variances, notably the pattern of research income.

2014-15 BUDGET

Received

124.1 APPENDIX C 6/92 (13-14) – the budget for the year to 31 July 2015.

124.2 Oral reports from Mr Phil Harding, Director of Finance and Business Affairs, and Mr Simon Melliss, Treasurer.
Reported

124.3 The budget was for an increase in the surplus from £11.2m to £27.5m (2.5%), net of property disposals. This was consistent with the trajectory of improved financial performance agreed by Council with a view to achieving a 5.5% surplus by 2017-18.

124.4 In setting the budget it had been necessary to agree with Deans a reduction in the pace of growth in staff costs. The budget did not assume any uplift in QR as a result of the REF. The latest information on student recruitment was encouraging, with the number of postgraduate acceptances significantly up on the same point in the previous year. The budget incorporated a significant rise in capital expenditure (to £144m), which included the final payment on Bidborough House.

124.5 The budgeted 6% rise in Professional Services costs reflected investment in several major strategic initiatives including IT systems, ongoing centralisation of admissions, expansion of the DARO team, high ongoing levels of estates costs and an increase in student bursaries. Finance Committee had requested additional detail on the rationale behind the budgeted increases in Professional Services and corporate finances expenditure.

124.6 The Treasurer reported that Finance Committee had approved the budget whilst registering a degree of dissatisfaction with a perceived lack of ambition in the target surplus. FC has also asked that an element of quantification of risk be incorporated into future budget papers.

Discussion

124.7 Council discussed the manner in which the need to slow the growth in staff costs had been communicated to the UCL community, as well as the impact of any cuts to funding of research activity already budgeted for. The Provost noted that the 28% growth in staff numbers over the past three years had significantly outstripped the 16% growth in student numbers. This had been driven by the REF cycle, and was unsustainable; UCL had reached the capacity of its infrastructure and it was vital that staff appreciated the full economic cost of every new appointment. Deans had been asked to delay by six months any new posts not directly associated with increased income. Appointment to posts funded by external grants continued as normal, as did replacement appointments. No other instruction had been issued in relation to expenditure.

124.8 Council discussed the role of governance oversight in reaching the current position. It was noted that the sector had experienced a period of extraordinary change. The Chair noted also the improvement in and increased candour of management information now available to Council.

124.9 Council discussed the level of risk inherent in the projected research income. The recent transfer of three MRC units to UCL was expected to provide an opportunity to leverage additional research income. New
grant awards were up, and the opportunities provided by the
government’s commitment to invest in the development of quantum
technologies were noted.

124.10 Council discussed the programme approval process and the
importance of ensuring that different faculties did not introduce new
Masters programmes likely to be in direct competition for students.

124.11 The budget did not make reference to the April 2014 USS pensions
valuation as it was not thought likely that any increase in contribution
rates would be introduced before September 2015. A 2% increase in
contribution rates had been incorporated into financial projections from
that date.

124.12 It was suggested that a public statement of the proportion of the
expenditure under the Estates and Funding Strategy falling to the
Stratford development and the Bloomsbury campus would be useful
for staff.

**RESOLVED – on recommendation of Finance Committee**

124.13 That the proposed budget for the year to 31 July be approved.

125 **UCL 2034 STRATEGY**

*Received*

125.1 APPENDIX C 6/94 (13-14) – the final draft of *UCL 2034: a 20 year
Strategy*.

125.2 An oral report from the Provost.

*Reported*

125.3 A four-month consultation with the UCL community had recently
concluded. Once agreed by Council, the Strategy would become a
dynamic document communicated principally through the website,
rather than an unchanging, published text.

*Discussion*

125.4 In approving the final draft, Council members suggested that the
description of UCL’s history and ethos be expanded slightly, and that
minor amendments be made to the visual presentation.

**RESOLVED**

125.5 That the final draft of *UCL 2034: a 20 year strategy*, together with
the next steps of the implementation process, be approved.
126  **UCLU REPORT**

*Received*

126.1 Oral reports from Mohammed Zayyan Butt, Ethics, Environment and Operations Officer, and Keir Gallagher, Education and Campaigns Officer, UCLU.

*Reported*

126.2 Notable UCLU initiatives in 2013-14 had included: campaigns relating to international students’ fees and the payment of Postgraduate Teaching Assistants; the development of a London NUS structure to provide a pan-London voice for students; working with the Registry on the development of a UCL Fitness to Study policy and the capturing of data in relation to students with responsibilities as carers; and the development of an Estates and Funding Strategy and an HR action plan for UCLU staff. Other notable achievements included the reintroduction of the Varsity Forum, the creation of a sustainability framework for internal services, and the inaugural UCLU Education Conference.

*Discussion*

126.3 Despite a rise in voter turnout from 16% to 20% in 2013-14, student participation rates in elections were still below the Russell Group average. Improving the position would be difficult in view of the high numbers of postgraduate and international students, who were traditionally the categories most commonly disengaged from their students’ union. It was understood that many students were unclear about the purpose of the autumn elections and the nature of the positions elected at that time of year.

126.4 Professor David Price recorded the thanks of the staff and students of the UCL Academy for the help of the UCLU in providing volunteers and mentors. The Chair thanked Mr Butt and Mr Gallagher for initiating the new reporting system, which would be carried over for the future.
Matters for approval or information

127 ACADEMIC UNITS – RENAMING OF DEPARTMENT

Received

127.1 APPENDIX C 6/95 (13-14) – a proposal to rename the Department of Medical Physics and Bioengineering with effect from 1 August 2014.
