Matters for Discussion

105. PROVOST’S BUSINESS

105A OfS

105A.1 UCL had been registered by the Office for Students in the register of English higher education providers.
105B Gradautions

105B.1 16,437 students had graduated from UCL in the past academic year with their achievements celebrated at the recent graduation ceremonies. This comprised 4863 UG, 10,476 PGT, and 1,098 PhD students.

105C Spin-Out success

105C.1 A number of UCLB spin-outs had received substantial investment. Autolus Therapeutics Ltd, a UCLB spin-out, made its debut on the NASDAQ stock market at the end of June and raised $160 million in investment. MeiraGTx Holdings plc, which acquired a majority of UCLB spin-out Athena Vision in 2016, raised $75 million at the close of its initial public offering on the NASDAQ. Freeline Therapeutics had announced that it had raised over £88 million of new capital in a Series B financing. This would allow the companies to continue to improve treatments for patients with life-threatening diseases.

105D Visitor

105D.1 There was no significant new information from the Visitor at this stage.

105E UKVI Compliance

105E.1 UCL was waiting to hear from UKVI on the outcome of the recent audit of Tier 2, 4 and 5 visas.

105F Changes to Reporting Lines in Professional Services

105F.1 The retirement of the Vice-Provost (Operations) at the end of the year had prompted a change in reporting lines in professional services that would come into effect on the 1st August 2018. A new Chief Operating Officer would be appointed to lead Estates, HR, ISD and Finance and Procurement, to co-sponsor TOPS with the Vice-Provost (Education & Student Affairs) and to take a lead role in overseeing the design and delivery of UCL-East operations. Student Registry Services and Careers would report to the Office of the Vice-Provost (Education & Student Affairs) bringing all aspects of student education and experience together for the first time.

105F.2 The Office of the Vice-Provost (Development) would be renamed the Office of the Vice-Provost (Advancement) led by Ms Lori Houlihan and would take responsibility for Communications & Marketing in addition to Development & Alumni Relations. Planning, and Equality, Diversity & Inclusion would move into the Office of the President and Provost. The reporting lines for UCL Culture, Legal Services, and Research Services were still to be resolved.
105G  Teaching and Research Excellence

105G.1  UCL had placed fifth among more than 240 universities in the THE Teaching Rankings 2018. UCL had been awarded its 200th ERC research fellowship which was a massive achievement.

105H  USS Pensions

105H.1  UUK had circulated a briefing paper that had a number of questions that needed to be answered by 19th July 2018 on the implications of invoking rule 76.5 and the implications of cost-sharing. UCL’s response would be to the effect that the cost-sharing option was unaffordable for UCL and would also have an adverse impact on its employees. Any further detailed answers to the questions could not be provided as the time frame was too short. It would be necessary to consult with Academic Board in advance of Council making a decision.

105H.2  The Director of Finance & Business Affairs provided some context on the possible reasons for the short time frame for response to the UUK briefing paper, the approach that would be taken to cost-sharing should it be introduced, the progress of the JEP and inaccuracies that were contained in the UCL UCU letter that had been circulated to Council members: UUK was not seeking a projected large deficit as part of the JEP as the letter had indicated and UCL was not thinking of "going it alone".

105H.3  There was discussion on the assumptions underpinning the USS evaluation including de-risking, the obligations of the trustees in relation to the deficit recovery plan, and the sensitivity of the scheme to changes in the interest rate and the impact on staff recruitment should cost-sharing be introduced.

106.  FINANCIAL UPDATE 17-18

106.1  Council considered the Financial Update – Forecast 2, which provided the UCL Full Year Forecast 2017-18, as at March 2018. The forecast surplus for the current year was £85.9m, based on actuals at the end of March, which represented an outperformance of £6.3m. By year-end, the faculty contribution was forecast to meet the budget of £341m which represented a growth of £33m on the previous year. The £16m unassigned improvement target had also been achieved. The projected year-end balance of £139m (excluding ring-fenced research funds held on account) was £40m above budget, primarily representing an additional £18.5m of compensation received from HS2 for Wolfson House and a forecast RPIF receipt of £28.6m for the purchase of the EDH site.

106.2  Council discussed the key variances as set out in the report, and feedback was provided by the Director of Finance and Business Affairs. These principal variances included research income and estates capital expenditure. Research overheads continued to increase on a year-on-year basis. With respect to capital expenditure, reprioritisation and project changes within the
year had resulted in reduced spending on UCL East and the IOE Masterplan. These were balanced by the introduction of the Clare Hall and EDH purchases (the latter being a replacement for planned work on Queen Square House) as well as work on Astor College. Some members of Council felt that more should be done to ensure wider understanding of the importance of paying for capital expenditure from surpluses. In response to a question about expenditure on contract staff, the Director of Finance and Business Affairs explained that these staff were utilised to cover vacancies and for project work; provided contract staff were used in a controlled manner, it did not pose a risk.

107. STUDENTS’ UNION UCL ANNUAL REPORT 2017-18 and 2018/19 BUDGET
[Paper 7-75, 2017-18]

Records had been broken for the election turnout. The rebrand had garnered a Gold for Visual Systems Identity from CASE.

107.2 Council considered the Students’ Union “break-even” budget for 2018/19, incorporating a grant from UCL of £2.66m representing an increase of 4% from the 2017-18 grant.
