

Connected Curriculum

Meet Your Researcher

All School of Slavonic and East European Studies BAs

Connected Curriculum

- The Connected Curriculum is designed to engage UG students in learning through and about research.
- You will complete various activities through your degree programme.
- 1st activity: Meet Your Researcher

Meet Your Researcher: Aims

1. introduce you to the research culture of SSEES in general and the work of a research-active academic in particular
2. develop team work and project management skills
3. develop your abilities to distil, synthesise and communicate key ideas
4. develop your communication skills, including your ability to select appropriate language and media for a specified audience

Meet Your Researcher: Process

1. You'll be assigned to groups of 5-6 students.
2. Each group will be assigned a SSEES researcher.
3. Each group will be given one article or book chapter by their assigned researcher.
4. You will find out as much as you can about the researcher's interests/expertise.
5. After you have conducted your research and read the article/chapter, you will meet in your groups.

Meet Your Researcher: Process

6. Compare notes and create a profile of the researcher.
7. Decide what questions (demanding questions) to ask the researcher.
8. Decide who will ask what. Possible questions:
 - Motivation for research
 - Research process
 - Methodology
 - Problems
 - Successes

Meet Your Researcher: Process

9. Arrange to meet up with the researcher and conduct the interview
10. If you wish to record the interview, ask the researcher's permission.
11. Meet up in your group and discuss how best to present the research: report, v-log, PPT, poster
12. Submit the presentation and get feedback from the researcher.

Any questions?
