

Guide for completing a student visa application outside the UK

To make the Student visa application online from outside the UK you need to do so from the country that you are ordinarily resident in. Normally this means your country of nationality. However if you hold a residence permit in a country other than your nationality you may be able to apply from there. Usually this would be if you have a residence permit for a period of 6 months or longer e.g. you had a student resident's permit for a year and are not in the country as a general visitor.

Please note your application date will be the day you submit your application and pay your application fee online.

The application fee is £363 for the standard service.

Link to the online application: <https://www.gov.uk/student-visa/apply>

Answer the preliminary questions.

If you...	Please refer to
Have a current EU, EEA or Swiss passport with a biometric chip	"ID Check App Guide" below
DO NOT have a current EU, EEA or Swiss passport with a biometric chip OR Have a current EU, EEA or Swiss passport without a biometric chip	"Application Form Guide" on P.33

ID Check App Guide

You can use the app on:

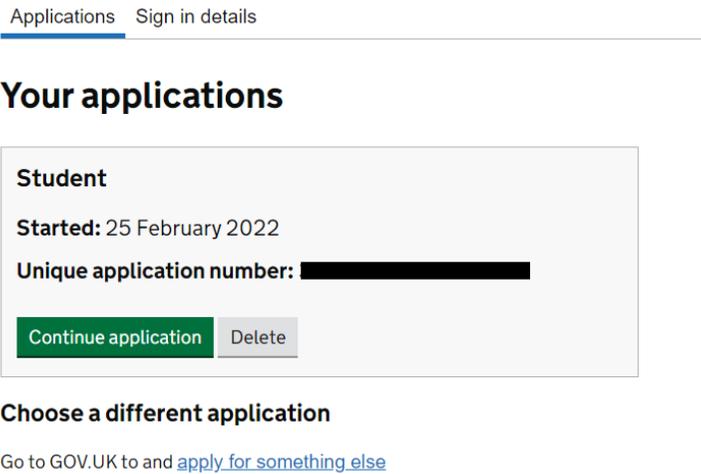

- an iPhone 7 or newer models
- an Android phone with near-field communication (NFC)

1. Create an account

- Enter your passport details when prompted
- Enter your email address and mobile numbers, and verify these details by following the steps on the page

2. Sign into your Application

Once you have created an account, you will need to confirm details about your identity document which you used when you created the account, and receive a security code again in order to sign in.

 <p>Applications Sign in details</p> <h2>Your applications</h2> <p>Student</p> <p>Started: 25 February 2022</p> <p>Unique application number: [REDACTED]</p> <p>Continue application Delete</p> <p>Choose a different application</p> <p>Go to GOV.UK to and apply for something else</p>	<p>Once signed in, you will see your unique application number and can continue with your application.</p> <p>If you log out of this page you can return to it by clicking the link in the email sent to you by UKVI when you created your account.</p> <p>Click “Continue application” and you will see the progress of your application.</p> <p>Then click “Confirm your identity”.</p>
---	---

<div data-bbox="226 213 1084 635"><h2>Confirm your identity using the app</h2><p>You will need to:</p><ol style="list-style-type: none">1. Download and open the 'UK Immigration: ID Check' app.2. Use the app to scan your identity document.3. Upload a photo of yourself.<p>Continue</p></div> <div data-bbox="226 660 423 692"><p>Finish and leave service</p></div>	<p>Download the “UK Immigration: ID Check” app on your smartphone.</p> <p>If you have difficulty downloading the app, please refer to government guidance here: https://www.gov.uk/guidance/using-the-uk-immigration-id-check-app</p> <p>Click “Continue”.</p>
<p>← Back</p> <h2>Check your identity document has a biometric chip</h2> <p>Look for the following symbol on your identity document:</p> <div data-bbox="237 1086 318 1126"></div> <p>Continue</p> <p>My identity document does not have a biometric chip</p>	<p>Click “Continue”.</p> <p>You will be redirected to a page with instructions to download and connect the app.</p>

3. Connect the app

Open the app and select how you would like to connect.

QR Code

Use the scanner in the app to scan this QR code:

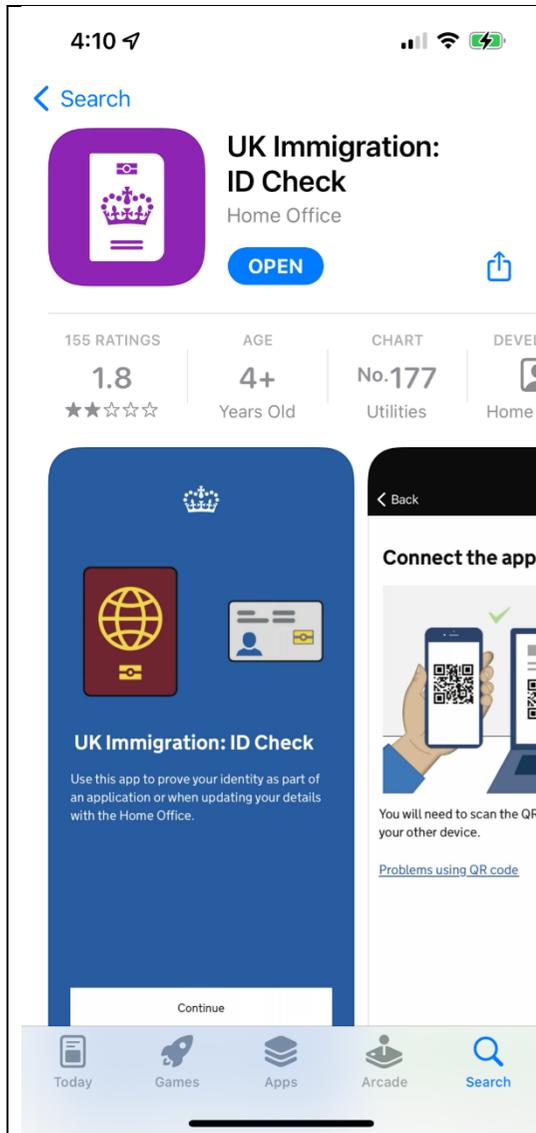

Connection code

You will be given a connection code in the app.

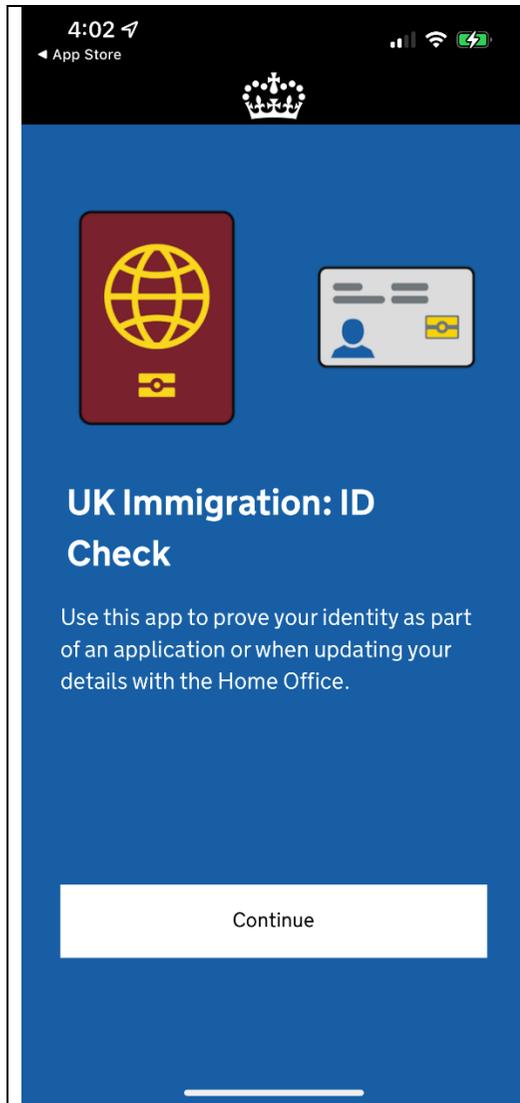

Enter connection code

Scroll down to “3. Connect the app”.

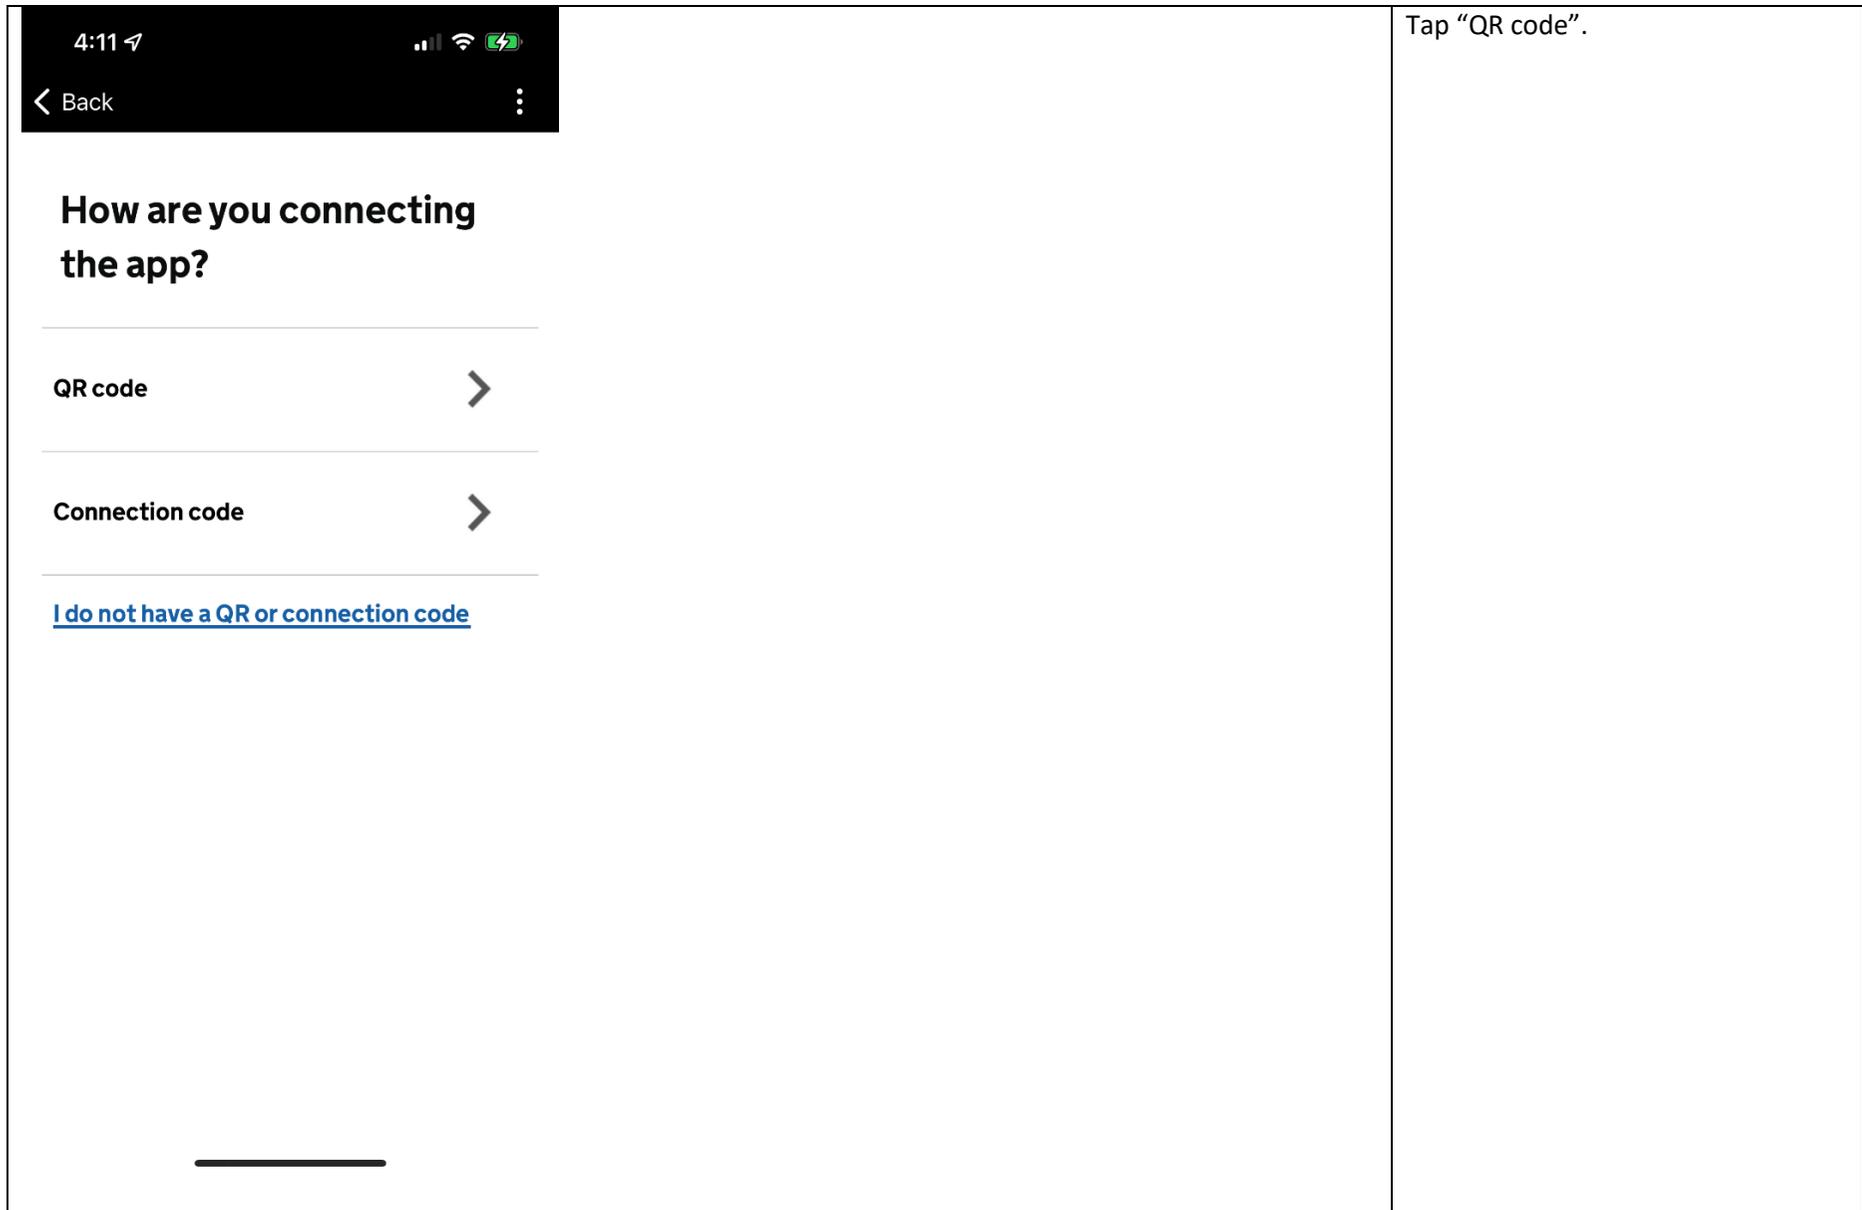

You will need scan this QR code later in the app.

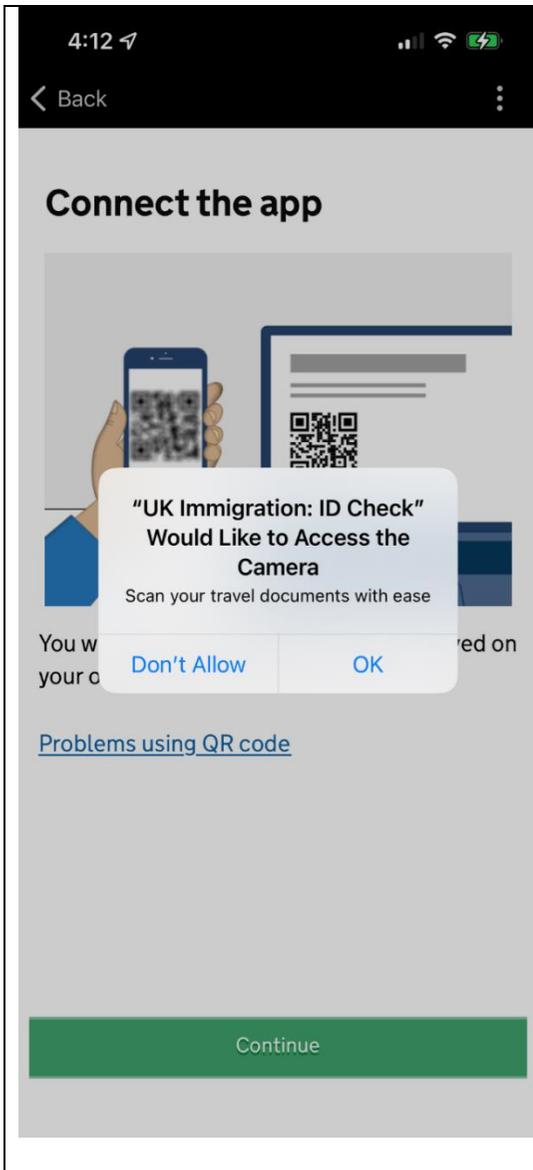

Download the “UK Immigration: ID Check” App.

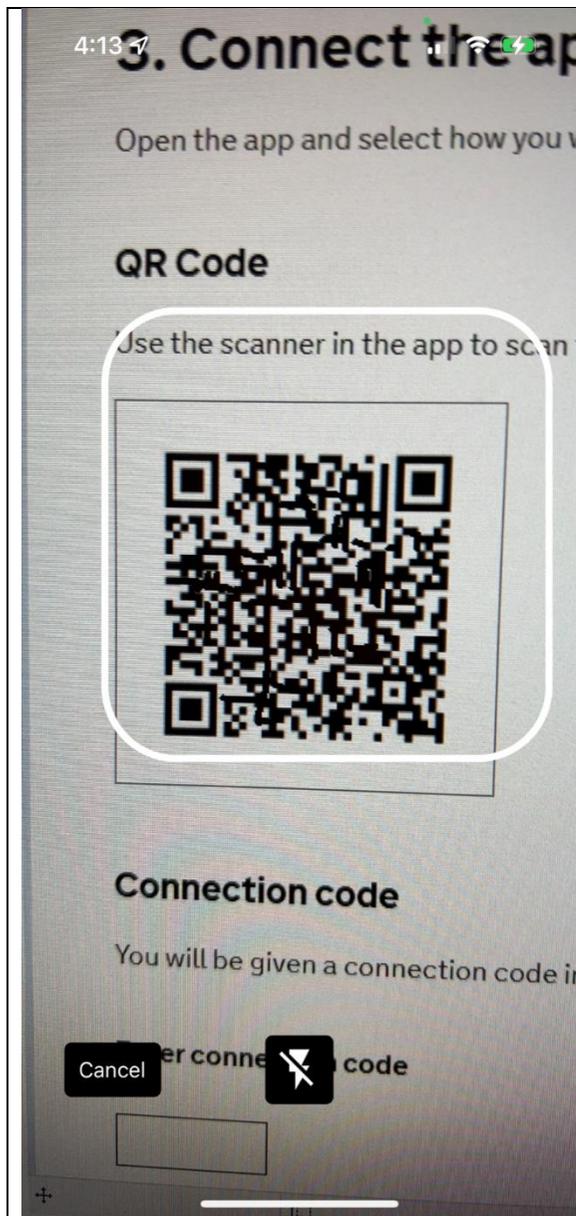

Tap "Continue".

<p>4:11 ↗   </p> <p> Back </p> <h2>Connect the app</h2>  <p>You will need to scan the QR code displayed on your other device.</p> <p>Problems using QR code</p> <p></p> <hr data-bbox="376 1332 566 1340"/>	<p>Tap "Continue".</p>
--	------------------------

Allow the app to access your camera.

Now, scan the QR code from the Home Office website.

4:17 ↗

We need to confirm who you are

To help protect your data, we will send a 6-digit code to your mobile number or email address. Select where you want to receive the code.

07*****76

j*****k@ucl.ac.uk

Choose a method to verify your identity.

What happens next

Upload your evidence

1. Scan or take a photo of the document – it must be clear and easy to read.
2. Save it on your computer or device.
3. Give the file a simple name. For example, "bank statement 2021".
4. Upload the document.

[I need help](#)

After you apply

You do not need to provide evidence of your qualifications or finances as you are a national of a country that is exempt from these requirements.

In some cases, we may request this evidence when considering your application.

If you do not provide the evidence when requested, your application may be refused.

Application Form Guide

Select a country to provide you biometrics. You must usually apply from your country of residence. Click the “check the available biometric enrolment locations” link to find out if there is any available location in your country of residence. If there is no available location in your country, check the following links to find out the redirected country you need to travel to:

TLS: <https://pos.tlscontact.com/tls-service-options>

VFS: <https://visa.vfsglobal.com/gov/en/gbr>

What type of visa should I select?

Confirm your visa type

- Student Visa - You have received an unconditional offer from UCL and have received a CAS statement.
- Short-term Student Visa - only if you have been advised by UCL admissions you are eligible for a short-term student visa.

Customising your application

The online form selects and hides questions based on the answers you provide on the customisation screen.

Completing the Form

There are a number of sections on the form, which you are required to complete. You can save your form at any time and come back later to complete it. We recommend that you begin completing the application form as soon as possible. It should take you around 15-30 minutes to complete most of the details. The sections of the application are divided up as follows:-

CAS number – You must have a valid CAS in order to complete the Student visa application. Please note that a CAS number can be used only once and is valid for 6 months only. If you do get a refusal on your Student Visa application, you will need to get another CAS number from UCL in order to make another Student Visa application online.

Personal information – This section is asking for information such as your name, address, date of birth, place of birth, passport information, parental information.

The application form also asks for nationality identity card details, if you have one then provide the details. You do not need to submit your national identity card with your application or have it with you in the UK while you are studying.

Parent details – It gives you the option to state that you do not have these details. However, it is better if you can complete this section if you can.

Accommodation details – if you know where you will stay you can state the details by ticking yes to this question. If you are unsure, you can state what your circumstances are by ticking no and stating them in the free text box. As part of your Student Visa application, you should provide a UK address and post code.

- If you have applied for UCL Student accommodation, you should enter the following address UCL Student Residences, University College London, 117 Gower Street, London WC1E 6AP.
- Otherwise, you should enter the address of the hostel or other temporary accommodation where you will stay while you find somewhere to live.
- Alternatively you can put the main UCL address: University College London, Gower Street, London WC1E 6BT.

Travel history in the UK

You will be asked to answer how many times you have visited the UK in the past 10 years

You will be asked to detail your 3 most recent trips to any country listed above. You should answer these questions honestly. You will not be asked to provide evidence of these trips.

Medical treatment in the UK – if you have been to the UK previously, you will be asked to enter details regarding any medical treatment you received in the UK. If you had been on a visa which required you to pay IHS fee, you would not have been asked to pay for your NHS treatment.

Travel to Australia, Canada, New Zealand, USA, Switzerland or the European Economic Area – enter ALL the trips to these countries in the past 10 years.

World travel history – enter ALL the trips to any other country (not listed in the above) in the past 10 years.

UK arrival date

You will need to provide the date you plan to arrive in the UK, please note that you cannot travel to the UK earlier than one month before your course starts as stated on your CAS. If you are doing a course that is six months or longer, or for a pre-sessional course that is less than six months, you will be able to come to the UK either one month before your course start date or seven days before your intended date of travel, whichever is later.

If you are doing a course that is less than six months and is not a course to prepare you for study, you will only be able to come to the UK up to seven days before the start date of your course. This may apply to you if you are doing a Medical Elective position for example on a Student visa.

Immigration history – You need to be honest and open if you have received any visa refusals in the past and include the details here. You will also need to declare if you have any criminal convictions and held or supported any terrorist views or activities.

Person of good character – You will need to be open and honest answering whether you have undertaken any work for a non-UK government which you know to be dangerous to the interests or national security of the UK or its allies, as well as any activities that mean you are not a person of good character

Employment history – You will need to declare if you have undertaken paid or unpaid employment in any of the following sections : Armed Forces (career), Armed Forces (compulsory national or military service), Government (including Public or Civil Administration and non-military compulsory national service), Intelligence services, Security organisations (including police and private security services), Media organisations, Judiciary (including work as a judge or magistrate)

University Sponsor Details – All of this information is on your CAS statement provided by UCL. You should enter the information exactly as stated in your CAS.

Place of Study – Please answer Higher Education Provider with a track record of compliance.

ATAS – If your course requires ATAS, this should be listed in your UCL offer information as well as listed on your CAS. You will need to have received your ATAS certificate before you submit your visa application.

Future official financial sponsor – Official Financial Sponsors are defined as the UK Government, your home government, the British Council or any international company, university or independent school. If you have a scholarship from an organisation that meets this description, select Yes for this question. An international company is one that has an office in more than one country.

Course information- Please copy the details exactly as they are on your CAS. Please note your CAS will state NQF but the form will list this as RQF.

Accommodation payments – only if you will be staying at a UCL residence, you can add payments that have been made to UCL for your accommodation.

Course fees – You will need to enter the course fee as they appear on your CAS statement. If you have paid any course fees to UCL please check this number is listed on your CAS. If it is not listed on your CAS, you can either email UCL Admissions and ask them to update your CAS or submit your official UCL tuition fee receipt.

Maintenance funds

MAINTENANCE IS THE MAIN AREA WHERE STUDENTS MAKE MISTAKES AND RECEIVE REFUSALS.

It is very important that you read the supporting guidance provided by the UK Government and the [UCL webpage](#) to ensure that you meet the requirements. Course fees will be stated on your CAS statement or your offer letter.

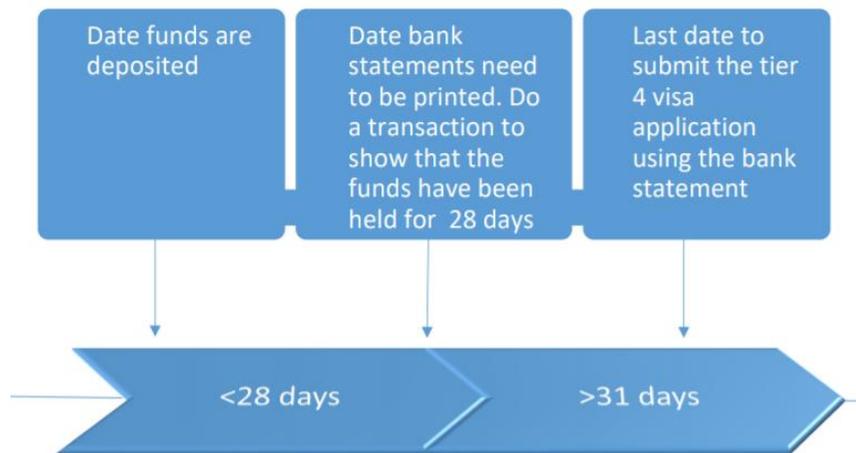

“Are all of the maintenance funds required for this application in a bank account with your name on it?” – You will need to state “Yes” unless you are fully sponsored by an official government sponsor or an international scholarship agency, **or** your funds are in your parent’s account and in their name.

Living costs: You are required to demonstrate that you have a set amount of money to cover your living costs (£1,334 per month) for each month of your course up to a maximum of 9 months (if your course is one year or more in duration, this will be £1,334 x 9 months = £12,006).

Fees paid to the university: You also need to show that you have the tuition fees for the first year. Course fees paid (full or partial) and UCL student residences accommodation deposits (up to £1,334) already paid to the University can be deducted from the amount you need to evidence as long as your CAS has been updated with this information or you submit UCL official receipts to prove this.

All these funds need to be held in a bank account for a consecutive 28-day period and the bank statement submitted needs to be less than 31 days old on the date of your application (i.e. the date you pay the application fee).

The total amount you need to prepare can be worked out using this formula:

“Are all of the maintenance funds required for this application in a bank account with your name on it?” – If you are using your parents’ bank statements for your application, you should choose “No”. If you are using an educational loan from a bank, you should choose “Yes”. If you are using your parent’s accounts, you will also need to provide a birth certificate and translation (if the document is not in English) and a consent letter from your parents confirming the relationship between you and that they consent to you using their funds for your study in the UK.

Additional Information – you do not need to fill in this section if you do not have any other information to provide. Use this section if your circumstances are not the usual and you need to explain something further.

Please check all your details carefully before submitting your application. Please note that you will not be able to make any changes/edit to your form once your application has gone past the Immigration Health Surcharge page, it will lock your answers.

In order to submit your Student Visa application online, you will need to pay the IHS charge. You will be automatically directed through the IHS process when you complete your online Student Visa application.

The fee you pay is based on the duration of your visa rather than the duration of your course. The surcharge will be £470 per year for each year you are in the UK. Where your stay in the UK includes part of a year, they will charge you £235 for periods of 1-6 months. For example, if you are doing a 12-month master's course they will charge you £705. This is because your visa will be issued for a total of 16-17 months. You can find out how much you will be expected to pay using the fee calculator on the [UKVI website](#). Once payment has been made, you will receive a reference number starting with 'IHS'.

Documents – this page shows you the documents you need to submit with your application. Please also refer to our [UCL documents checklists](#).

BRP Collection Location – Visa regulations mean that you will be required to pick up a Biometric Residence Permit (BRP) ID card upon arrival at the UK. You must usually do this before the vignette sticker in your travel document expires or within 10 days of arriving in the UK, whichever is later. Check your decision letter. It will tell you which location to collect your BRP from.

You can use UCL's BRP Alternative Collection Location code (2HE484), this means your BRP will be sent directly to UCL and that you will be able to collect it from the Student Immigration Compliance Team. You could also opt to collect your BRP from a post office in your visa application. See [our webpage](#) for collection details.

Book an appointment

You must book an appointment to submit your biometric data (fingerprints and facial image) as part of your visa application. Please select an available location, day and time. Please note that if you do not pay for your visa application fee online within 3 hours, your appointment will be cancelled and you will need to re-book. The appointment booking is usually handled by a third-party organisation – for example VFS Global, TLS contact depending on where you are applying. To find your nearest visa application centre see [here](#)

Pay for your application

You will need to pay your application fee online with a Master/Visa card. You will be charged in your card's local currency. All Home Office exchange rates are set at 4% above the [Oanda](#) live bid rates.

The fee shown on the website is for processing and consideration of your application and the entry clearance decision-making service, not for the guaranteed delivery of a visa, therefore you will not be entitled to a refund should your application for entry to the UK be refused or granted for a shorter time period than the period you applied for. Your fee can be refunded in some circumstances only. Usually if you do not give the biometrics (fingerprints) information then your application will be rejected as invalid and you will get a refund. You can save and/or print your application as a PDF. You can also print off your appointment details.

Dependants

You can bring your husband, wife, unmarried partner, and children (under 18) to the UK with you as a Student visa dependant if one of the following applies to you:

- You are studying a postgraduate course of 9 months or more
- You are a government-sponsored student and studying a course at any level of 6 months or more

Your dependants can apply to enter the UK at the same time as you or they can apply separately at a later date. If they do not apply at the same time as you they should ensure that you have received your visa before they make an application themselves.

Please refer to the [Student and Child Student Guidance](#) (page 98-107) for more information.

If you...	Please refer to
Have a current EU, EEA or Swiss passport with a biometric chip	“ID Check App Guide” on P.2
DO NOT have a current EU, EEA or Swiss passport with a biometric chip OR Have a current EU, EEA or Swiss passport without a biometric chip	Below steps

- **Application form:** Completed [online](#).

- **Passport(s):** You should submit any passports that you have ever used to enter the UK.
- **Financial evidence:** Each dependant will be required to show that they have the equivalent of £845 for each month of the main applicant's **leave**, up to a maximum of 9 months (£7,605).
- Funds can be either in the dependant's name or the main applicant's name. This can be one or a mixture of the following :
 - **Bank statements:** The money must have been in the account for a period of at least 28 consecutive days. It is extremely important that you do not drop below this total amount even for one day or your visa will be refused. The final date of this 28-day period must not be more than 31 days before the immigration application is made.
 - **Scholarship:** If the main applicant is receiving sponsorship from an official financial sponsor that is able to provide for dependants as well, you can use that as proof of funds. In this case you must provide an official letter which specifically names your dependant(s). Any difference will have to be made up by other sources.
- **Proof of relationship:** Dependants must show proof of relationship to the student such as marriage certificates and birth certificates. You will need to provide evidence to show that your relationship is genuine and subsisting. For example, at least 6 different documents from different sources demonstrating that you have lived together at the same address for at least 2 years.
- If dependants are applying from outside the UK at a different time from the student, they should also provide:
 - **Proof of student's visa status:** Copies of the student's Student visa and passport details pages.
 - **Proof of student's enrolment:** A Student Status letter from UCL confirming that the student is currently enrolled at the University.
- Please refer to our UCL documents checklists for Student dependant applications: <https://www.ucl.ac.uk/students/immigration-and-visas/student-visa/student-visa-document-checklists>
