Our Units of Study

Our Short-Term Program offers the largest unit of study selection in Australia to Study Abroad students. Each unit is taught in an intensive format, while maintaining credit values. Many units of study are taught alongside local students and provide hands-on experiential learning in an Australian context. Students can enrol in either session: "Short-Term A" or "Short-Term B" and select up to two units of study.

Most units of study have no pre-requisites and are great for general elective credit back home. We also have some more specialised, core units of study, designed for Business and Liberal-Arts majors.

In 2020, some of our most popular unit of study options include:

- **Introduction to Australian History (HSTY1089):** This unit examines the violence of convict society, frontier conflict and early battles for self-government in Australia. It maps the political struggles, contested stories and shifts in Indigenous-settler relations that accompanied the creation of a nation state after 1880, and explores the effects of war on different social groups. Finally, it charts Australia's cultural and political transformation after 1945 into the postindustrial postcolonial society of today.
- **Australian Theatre Film and Learning (EDUF3034):** This unit examines the Australian identity through an exploration of Australian film, theatre, and television (traditional formats) as

well as new digital content and delivery platforms. The unit focuses on young Australian playwrights, performers and filmmakers, and the range of learning that takes place through young people's engagement in, and appreciation of, theatre, film, television and digital content. Students participate in excursions to local theatre productions around Sydney.

- **Bioethics (HPSC1000):** This unit explores major issues in the ethics of biology and medicine, from gene modification to Dolly the sheep. Science has given us nearly infinite possibilities for controlling life. As a consequence, difficult ethical questions are raised in increasingly complex cultural and social environments.
- **Communications and Stakeholder Management (PMGT1852):** This unit focuses on the process of stakeholder identification; defining their roles and responsibilities; understanding their organisation mission, vision and overall strategic objectives; alignment and prioritisation of specific project needs and requirements; with emphasis on stakeholder engagement/analytic methodologies such as analysing stakeholder influence, reliance, collaboration and communication networks.
- **Corporate Finance 1 (FINC2011):** This unit provides an introduction to basic concepts in corporate finance and their application, including valuation of risky assets like stocks, bonds and even entire corporations; pricing of equity securities;

and corporate financial policy decisions including dividend, capital structure and risk management policies.

- **International Human Resources Management (WORK3201):** This unit considers the opportunities and challenges associated with managing employees in international and cross-cultural contexts, with specific emphasis on international recruitment, selection, preparation, placement, management development, performance management, reward and remuneration in the international, multi-national and trans-national corporation.
- **Introduction to Indigenous Cultures (INDG1001):** This unit introduces students to Indigenous Australia in a stimulating, in-depth study of traditional and contemporary forms of

Aboriginal and Torres Strait Islander cultural expression. Ranging from the Dreaming and ancient knowledges, ceremony and lore, to the lives and societies of Indigenous peoples today, students learn in areas such as Aboriginal kinship, language, story and art, Indigenous agriculture, aquaculture and astronomy, and contemporary Indigenous cultures and cultural currents.

– Sport and Learning in Australian Culture

(EDUH4058): This unit provides students with a socially critical perspective on the place, meaning and practice of sport in Australian culture. Focused on the range of learning that takes place through youth's engagement in sport, it examines the practice of sport at levels ranging from elite international sport to grass roots, community-based and school sport. Students in this

unit participate in excursions to local rugby, Australian rules football (AFL), beach sports events, and more!

It was a tremendous experience to immerse oneself in another culture and develop a sense of community within Sydney, while exploring and appreciating the culture as well as building my resume.
