

**UCL Summer School Online 2021**  
**Health and Wellbeing Data Science**  
**Monday, 26 July – Friday, 30 July 2021**

**How do scientists compare and identify health inequalities?**

**On this Summer School you will learn how world-leading scientists at UCL define and measure global health and wellbeing, and how they collect and analyse their data.**

**Working in small groups you will analyse data on Covid-19 and other causes of mortality to compare local areas in England and Wales.**

**Required A level/ Advanced Higher subjects: No specific subjects required**

**For further information and other qualifications, please visit our website:**
