

DMITRY TUGARINOV

17 GORDON PLACE LONDON W8
PHONE 07894301272 • E-MAIL D.TUGARINOV@UCL.AC.UK

PERSONAL INFORMATION

Date and place of birth: 28/03/1989 Moscow

Citizenship: British/Russian

EDUCATION

1996 - 2002 Traditional Grammar School, Moscow, Russia

1996 - 2002 Musical School N43, Moscow, Russia

(flute, piano)

2002 - 2006 Russian Embassy School, London, Great Britain

2006 - 2008 City of Westminster College, London, Great Britain

Physics, Mathematics, Computing A-levels (AAB)

2008 - present University College London, London, Great Britain

Astrophysics

WORK EXPERIENCE

2006 - 2008 Russian Orthodox Cathedral, London

Singer (volunteer)

2008 - present Russian Orthodox Cathedral, London

Senior Singer

SKILLS

Studying technical and natural sciences gave me a lot of skills, such as analytic non-trivial approach to problem solving, ability to work under pressure and doing a lot of both paper and computer-based work.

During Astrophysics course I have been trained to work in the observatory (University of London Observatory, ULO) to use main telescopes for both visual and detector observations, including extra-solar planet research. I have also been trained to use different computer software under different operating systems for data reduction and analysis.

I am familiar with MatLab and Mathematica Software.

I have been using PC for a long time; I have skills of using of main Office programs (MS Word, MS Excel, MS Publisher, MS Access, MS Powerpoint). I have basic knowledge of HTML and Pascal. Direct relation to musical performances and recordings gave me skills in using the following music recording and editing software: Sony Acid Pro, Sony Sound Forge.

Singing in a choir for a long period of time helped me to develop important skills, which are essential for working in a team both as a member and a leader of the team, such as ability to work in constant attentiveness, stamina, punctuality, quick decision making.

Having several PCs, I have skills of organizing and maintaining both wired and wireless networks between computers.

I speak Russian and English fluently.

I can play the flute, piano, and guitar.

INTERESTS

Astronomy, Astrophysics, optical telescopes, naked eye stars observations; sports: powerlifting, football, tennis; music, reading, collective discussion.
